

REASSIGN ACTIONS

BY FYB PTY LTD

The FYB Reassign Actions add-in for Micro Focus' Content Manager is a simple but effective solution that enables users to reassign the current action for single or multiple items quickly and easily

Using the FYB Reassign Actions add-in will provide the following benefits:

- ▶ Streamlines the process for reassigning actions, supporting deadlines
- ▶ Simplifies functionality, making it more intuitive for users

Version 2.0.0 Features

- ▶ Supports Content Manager tag and task functionality
- ▶ Users can select a single record or multiple records to reassign the current action
- ▶ Current actions can be reassigned to the user themselves or to another user
- ▶ Quick access buttons can be added to the Content Manager ribbon and/or are accessible through the right click menu
- ▶ Users can complete the current action and if additional actions are remaining a prompt to confirm the responsible location for the next action will appear
- ▶ Available for Desktop and Web Client

Prerequisites

- ▶ Micro Focus Content Manager 9.3x, 9.4x
- ▶ Supports a 32bit or 64bit Content Manager client environment and Web Client

Terms and Conditions

- ▶ Subscription pricing
- ▶ Provided free to FYB Members for the duration of the Support Membership
