

ENHANCEMENT SUITE

BY FYB PTY LTD

The FYB Enhancement Suite of add-ins for Micro Focus Content Manager improves functionality thereby enhancing your users experience and providing them with efficiencies

Using the FYB Enhancement Suite will provide the following benefits:

- ▶ Enhance user experience by providing them with functionality that supports their day to day tasks
- ▶ Simplify and automate processes, saving users time
- ▶ Intuitive interfaces, requiring no training reducing the cost of deployment
- ▶ Subscribing to the Enhancement Suite will provide your organisation with value for money through reduced pricing.

The FYB DocUMove provides users with an intuitive web interface for uploading multiple documents into Micro Focus' Content Manager.

The FYB Email Tagger generates a unique identifier to streamline the inMailX filing process from Microsoft Outlook to Micro Focus' Content Manager.

The FYB Link Generator is a simple but effective add-in that enables users to generate a URL link to view or download documents stored in Micro Focus' Content Manager.

The FYB PDF Generator enables users to generate a PDF rendition or revision of a document within Micro Focus' Content Manager and generate a PDF copy to send via email quickly and easily.

The FYB Reassign Actions add-in for Micro Focus' Content Manager is a simple but effective solution that enables users to reassign the current action for single or multiple items quickly and easily.

The FYB Reportilize assists with the creation and maintenance of statistical dashboards for Micro Focus' Content Manager to help track and measure your key performance indicators

The FYB Soft Deleter is a simple but effective add-in that enables users to request the removal of a record from Micro Focus' Content Manager.
