

Martin Luther King Scholarship

12 December 2020

I am a freshman at the University of Colorado- Colorado Springs. My major is business in marketing. I want to own my own business as well as help other businesses grow as well. I have been a part of the Denver Kids Program for 8 years and in those eight years, Denver Kids has provided me with a lot of support. Denver Kids has played a tremendous role in me attending college. My involvement with the community has been at the Boys and Girls Club. In my free time, I visit the Boys and Girls Club and help around with cleaning and advising young youth kids.

My first year of college has been a journey however, I have learned a lot of lessons throughout the way. My father died my first semester of college and it has had a huge impact in my life. I had to remember that I am in college and everything I do now impacts my life forever and that motivates me to do better and be better every day. The MLK scholarship will significantly decrease the monetary weight of my family, given me true serenity, and will permit me to keep on pursuing my instructive dreams. I extraordinarily value your liberal monetary help and the occasion to seek after both my educational and extracurricular dreams.
