### ZEROCONTACT WAITLIST

Know your customers from the moment they arrive. ZeroContact waitlist and check-in gives your customers a contactless way to wait for a table and look through the menu.

### TABLESIDE ORDERING

Let your staff place orders on handheld devices so they can stop touching a shared terminal. No app to download and any device with a modern browser works.

Great for Line Busting, Table Side ordering or any time you need additional registers. Payment is ZeroContact and customer initiated.

### PAY AT THE TABLE

Split, Tip, and Pay At The Table via SMS, NFC or QR

No app or login needed. Customers simply pay on their own device with credit card, ApplePay, or GooglePay. No hardware, no dongles, and no swipers required.
