Mediation, Teaching,
Mentoring, Collaboration

Experience

City of Wind Design

UX/UI Designer | September 2020

Coordinated, designed, and tested client projects. Facilitated handoff with developers and worked to scale Notion database for all teams. Currently a project lead on a new in-house project focused on designing a data hub on users with disabilities.

Freelance

UX/UI Designer | Sept 2019 – Present

Balance multiple projects for various clients. Depending on client needs, I conduct UX audits and facilitate user testing, create design systems for startups, participate in design sprints, and produce UI mockups for all devices. I also coordinate and strategize with the client's team of developers, brand designers, and/or marketing representatives.

WEAI—Columbia University

IT Administrative Assistant | Dec 2018 – Present

Overhauled the website and information architecture after internal research and focus group research. Created a fresh brand for the 70th Anniversary and developed a communications design system resulting in increased activity across multiple platforms.

Univeristy of Chicago

Research Assistant | Oct 2016 – July 2017

Facilitated the principal investigator by handling qualitative and quantitative data; translating (French) as needed; and synthesizing information into digestible deliverables for the PI.

Case Studies

Eupnea Home | Client

Siri's Pinboard | 80 Hours

Ilgoyo | 80 Hours

Activities

Adobe Creative Jams | May 2020

Hexhacks | Sept 2019
