# Amy Pippa Nardie-Warner

As a cognitive accessibility advocate, social scientist, and designer, I aim to utilize my personal passions and background in research to craft inclusive and curated products that empower individuals.

## Experience

### City of Wind Design

UX/UI Designer | Oct 2020 – Present

- Project lead on an in-house project focused on accessibility practices
- Created product roadmap, conducted interviews, established a design system, validated design decisions, created pitch deck for investors
- Collaborated with designers, engineers, and project leads
- Scaled Notion database for all agency teams driving better communication

### Freelance

UX/UI Designer | Sept 2019 – Present

- Balance multiple projects and customize approach for various clients
- Conducted UX audits, facilitated user testing, created design systems for startups, participated in design sprints, and produced UI mockups for all devices
- Coordinate and strategize with client's team of developers, brand designers, and/or marketing representatives

### WEAI—Columbia University

IT Assistant | Dec 2018 – Present

- Led the website redesign project, conducted research and implemented overhaul in stages
- Created a communications design system resulting in increase activity across multiple platforms

### University of Chicago

Research Assistant | Oct 2016 – July 2017

- Facilitated principal investigator, handled quantitative and qualitative data
- Translated from French as needed
- Synthesized information into digestible deliverables for the PI
