

Ben Habib

Digital Product Designer

experience

Data Analyst | Natural Resources Canada

AUG 2019 - MAY 2020, OTTAWA, ON

- Re-compiling and cleaning of survey data (16 years, 30,000+ records)
- Support revision of methods used to collect, code, and present Survey data
- Spatial and statistical analysis of mineral development data, including Survey data
- Development and testing of effective data communication products (tables, charts, maps, dashboards)

Member Service Representative | Alterna

MAY - DEC 2018, OTTAWA, ON

- Empathize with members in order to provide beneficial options on financial products and services that best fit their need
- Developed a strong ability to multitask efficiently under pressure while maintaining rigorous attention to detail

YouTube Channel | Northern Tech

2010 - 2014, OTTAWA, ON

- Actively discovered and learned new digital tools to adapt myself to a constantly changing industry
- Produced media content aimed at providing a learning experience that is easy to understand for non-tech savvy individuals (3000+ subscribers, 700,000+ views)
- Developed my understanding and appreciation for user-centric design through my experiences of testing and reviewing software applications
- Began to apply my understanding of user-centric design to the content that I was creating

education

BrainStation | Diploma Candidate, User Experience Design

APR - JUN 2020, TORONTO, ON

CarletonUniversity | Bachelors in Economics

SEP 2014 - APR 2018, OTTAWA, ON

Ottawa based product designer with a passion for solving complex problems - creating human-centred solutions that are pleasant to use, both functionally and visually.
