

November Business Update

ETF@JFFLabs Expands Level Credit Facility

Level welcomes the Employment Technology Fund at Jobs For the Future (ETF@JFFLabs) in expanding our credit facility. JFF's support comes at a critical time, enabling Level to grow our credit facility ahead of our increasing customer base. We're excited to further both the ETF@JFFLabs' and broader JFF mission of accelerating and aligning the transformation of the American workforce and education systems to ensure access to economic advancement for all.

Joann Chen
Director, ETF@JFFLabs

"Level exemplifies the kind of innovation focused on underserved workers that ETF@JFFLabs seeks to support. We are thrilled to help the Level team expand access to fair credit when such access is needed more than ever."

We're Hiring!

Level is urgently seeking a Senior Full Stack Developer to join our team as the first engineering hire. We'll be actively growing our team over the next few months as we bring in new resources and activate new partnerships. We'll continue to advertise openings here but in the meantime, please share Level with well-rounded and socially motivated fintech engineers in your network.

Happy Customers Across Industries

Level has enabled our customers to grow their businesses and thrive. Here are a few of our happy customers and how they have relied on our Level Advance.

Sokha T.
Seattle, WA
Licensed General Contractor

"Level has simply changed the way I work. In the past, I'd have to wait for payments to come through before I could buy more materials. With Level I'm able to access what I need to continue earning."

Edgar G.
Chicago, IL
Last-Mile Owner-Operator

"A Partnership with Level, has been instrumental, for the growth of my business, helping me achieve true financial success on the Dolly platform. Knowing that Level will be there when I need support for my business, this partnership is simply priceless"

John S.
Chicago, IL
Last-Mile Owner-Operator

"After being introduced to Connor of Level I was able to take my company to the next level. They have not only assisted me in being able to stay ahead but are great and do a really good job at helping others."

Stay safe,
Connor & Team Level
