

Sponsorship Package

Envision Accelerator

We are raising \$150k to provide 10 - 15 teams with non-dilutive grants of \$10k and cover very few operating expenses.

Why Support Us?

Support diverse student founders - You will support a program that helps student-founders succeed on their entrepreneurial journeys.

Gain early access to founders - Envision is the only student-run accelerator that is university agnostic, which means you get access to an extremely diverse cohort. We will accelerate 10-15 companies this summer.

Gain focused access - Unlike school focused entrepreneurial clubs and accelerators, sponsoring Envision allows for direct access to diverse students who are actively working on growing their companies.

Gain community insights - You get access to a student-led management team that is plugged in to universities across the US and greater entrepreneurial ecosystem.

Increase brand recognition - Envision has planned events to cater to a small, targeted audience that is comprised of leading operators, founders and investors. This spread allows sponsors to access a wide network.

Receive tax exemptions - Envision Accelerator is a 501(c)(3) non-profit organization. This means your contribution is tax-deductible!

Tiered Benefits
