

ENHANCED ENTERPRISE ZONE

Enterprise Zones can be designated in disadvantaged counties, cities or portions of cities. These Enterprise Zones provide extra incentives for business. Double the Investment / New Jobs Tax Credit is allowed, and low interest loans may be made available through enterprise district loan funds. Local communities may exempt local taxes for six years (instead of five) for qualifying businesses that are also in Incentive Districts. Small Linked Deposit Loans may be for longer terms. The enterprise district management authorities created in some enterprise districts are empowered to establish venture capital loan programs and to solicit proposals from enterprises seeking to establish or expand facilities in the Enterprise Zones. By statute, funds for these programs would come from the issuance of general obligation bonds by the district involved. These loans can be for up to 100% of the estimated cost of the building and equipment.

Kansas

In 2012 Enterprise Zones were eliminated in Kansas.

Missouri

Enhanced Enterprise Zones are specified geographic areas designated by local governments and certified by the Missouri Department of Economic Development (DED). Individual business eligibility will be determined by the zone based on the creation of sustainable jobs in a targeted industry or demonstrated impact on local industry cluster development. Gambling establishments, retail trade, food and drinking places, educational services, religious organizations, and public administrators are prohibited from receiving the state tax credits. Service industries can be eligible if a majority of their annual revenues will be derived from services provided out of the state. DED will consult with the local government in determining eligibility.
