

# Slant'd Impact Studio

## Our Story

Built from the ground up by and for Asian Americans, Slant'd has evolved from a print magazine to a creative collective celebrating the journey of self discovery.

The power of belonging extends into the workplace. All employees deserve to feel safe so they can share their unique perspectives and be celebrated for who they are.

**The Slant'd Impact Studio exists to help companies cultivate the community that their AAPI employees want, need, and deserve.**

**Our mission:** to empower culture builders and creators with the confidence and tools to create spaces that positively and meaningfully impact their communities.

## Who we work with

The fight for a more inclusive and equitable workplace is long—and we're in this with you. It will take all of us to create a culture that celebrates the diversity that makes us human.

Our co-conspirators within companies are culture builders at heart, just like us:

- **ERG leads** who give voice to AAPI employees and are creating a blueprint in service of a collective vision
- **Organizational champions** who want to spark and sustain a community where everyone feels seen, heard, and valued

## Our services

From ideation to implementation, we help companies set the foundation for sustainable community building. Our expertise is grounded in authentically building and bridging cultures.

- ERG foundations development (purpose, mission, charter)
- Strategy, concepting, and execution of inclusive workshops, events, and programming
- Content strategy & development
- Speaker program development
- On-demand community coaching
