

NEWSFLASH 4/8/22

From the Principal's Desk

Parking Lot Lines - Lines were painted in our parking lot over spring break. This should help keep our drop-off and pick-up orderly.

Do Not Speed in the parking lot area. We have children and parents crossing. Stay alert to pedestrians in the lot and as you exit on to 4th St.

Parent/Teacher Conferences - Your student's teacher should be contacting you to set up a time to go over grades. If a student is struggling with a particular subject, it is expected for the parent and teacher to hold a conference on how to support the student until the end of the school year.

School dismisses at 12 noon during Parent-Teacher Conferences, therefore there will be **no lunch served for grades 8-12**.

After School care will be provided during P/T Conferences from **12 noon - 4pm**. Please plan accordingly.

Join Me in This Week's Parent's Prayer

A prayer for our older students:

*"Lord, the more my child establishes his/her own independent life, the more I have no choice but to release him/her into Your hands. The only way I can feel secure about him/her is to know that he/she continues to live under Your control. I have done all I can to raise him/her, so I release him/her into Your hands and depend on You to be in charge of his/her life... I trust You to keep him/her on the path You have for him/her."
(Amen)*

Stormie Omartian - Power of a Praying Parent

Calendar of Events - Looking Ahead

- Mon Grilled cheese, fries, veggies & drink
Tues Hotdogs, fries, fruit & drink
Wed Tostada shell, beans, rice & drink
Thurs. Haystacks & drink

Philippians 1:6 "Being confident of this, that He who began a good work in you will carry it on to completion until the day of Christ Jesus."

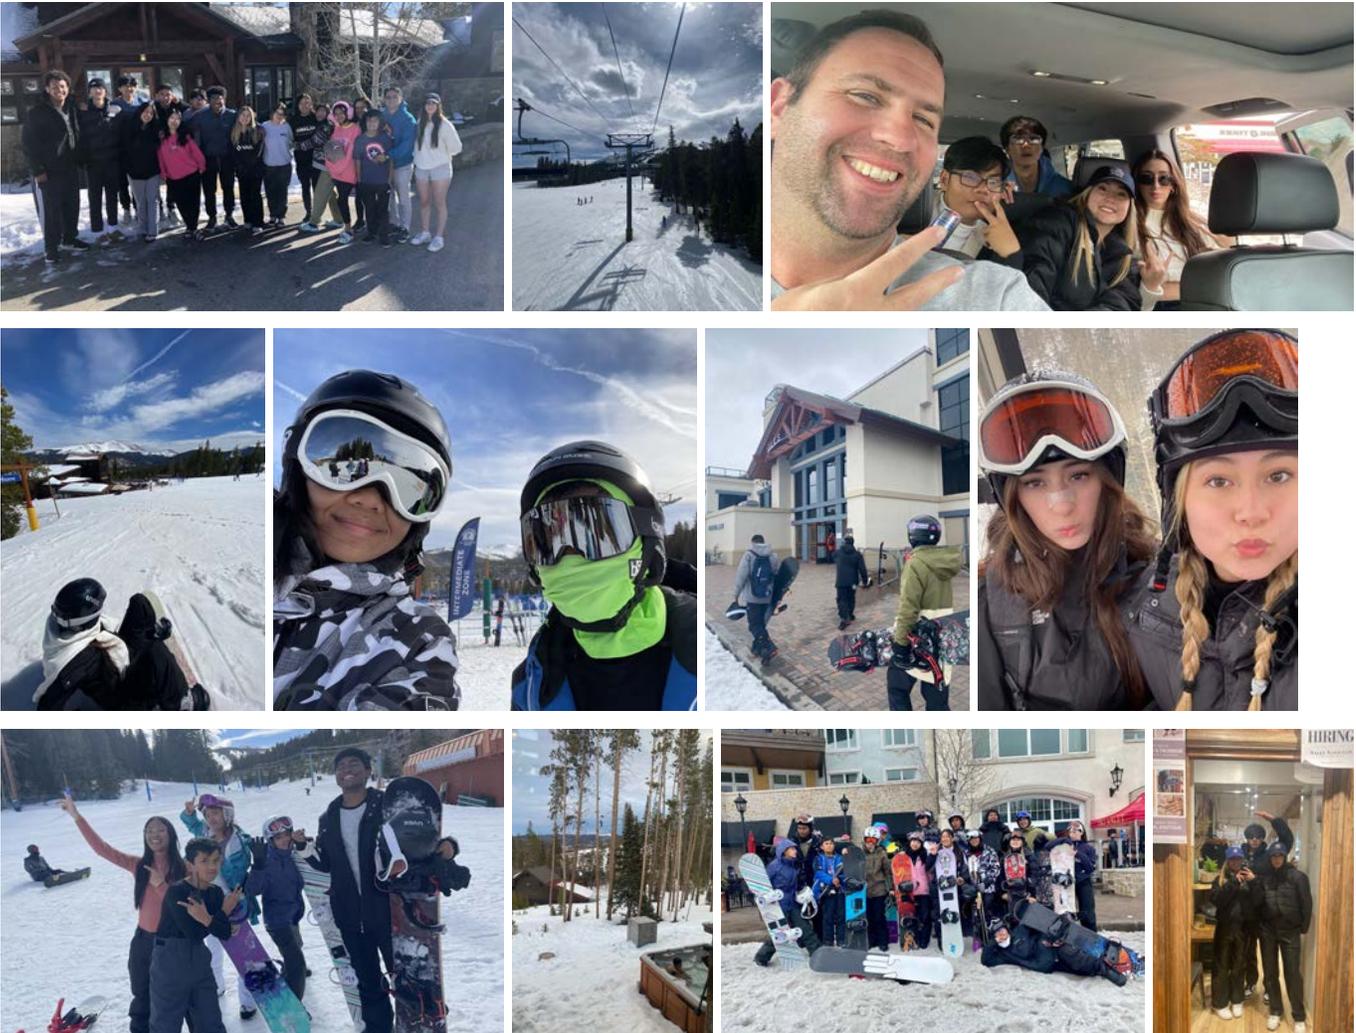

The Lighthouse Reflector

April 8, 2022 "The Publications class contribution"

"But as it is written, Eye hath not seen, nor ear heard, neither have entered into the heart of man, the things which God hath prepared for them that love Him."--1 Corinthians 2:9

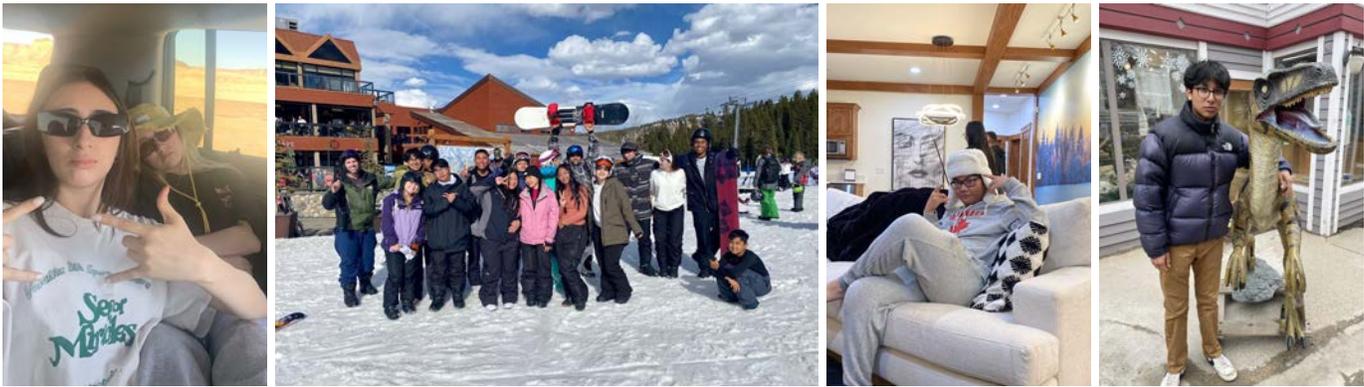

Senior Class Trip to Colorado

The high school seniors connected on a phenomenal class road trip to Colorado over spring break. Glenda Reyes, a senior Publications student shared, "My trip to Colorado was so much fun! I got to try and experience new things such as snowboarding, cooking for others, and being in snowy weather. And Standing outside while it was snowing. All my classmates enjoyed the trip a lot. Overall it was a really great trip and I would do anything to go with my classmates again."

Diego Alvarez, a senior Publications student shared, "The class trip was an amazing experience that I will never forget because of the memories that I made. Snowboarding is one of these memories that I will never

forget because of how much fun I had even though I fell multiple times. Visiting the towns was such a cool experience because of how different it is from San Diego. One of my favorite memories is when it started snowing while we were visiting the town of Breckenridge. This class trip was one of the best times I've ever had in my life and I made so many great memories with my classmates."

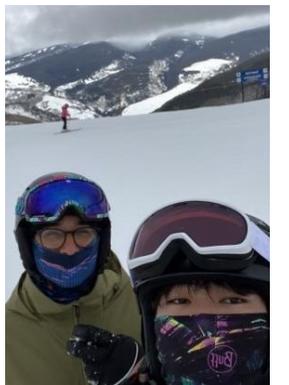

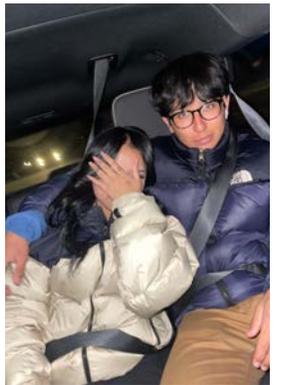

Stevie Carson, a senior, shared, "It took two days to get there and we stopped in Utah on the way. The most memorable parts were of course like snowboarding, we played Beanboozle, everyone was tearing it up. I was terrible at it. We had curry, burgers, a lot of different foods. Some groups cooked. We had a lot of late nights. The chaperones were Mr. Lindquist and the Beltrans. We stayed up really late. Everyone hung out with everyone. In the house, everyone was in the living room. We had 4 days of travel and 5 days there."

Margarette Labrador, a senior, added "I have three cautions people should take: 1) Don't go snowboarding when it is snowing and foggy 2) Be with your buddy partner at all times or you will get lost and 3) Be prepared to bring a gas mask because people will fart...a lot."

Ralph Tyrell added, "Man, it was pretty amazing, I don't know, it just helped me feel like a little kid again, going down the slopes, falling, it made me feel like I was in the ocean, getting thrown by the waves. We spent two days driving up and two days driving back and five days in Breckenridge. We got to snowboard. It was really refreshing and relaxing and I enjoyed my time with my classmates. We had a really good dynamic together. It was really great."

Elementary Activities

Third Grade Field Trip to the Creation Museum

photos and story contributed by Nancy Verduzco, 3rd grade teacher

The 3rd grade class visited the Creation and Natural History Museum due to their big interest in Dinosaurs. The class had a private tour and learned about the days of creation. They had a great time asking questions about dinosaurs and their extinction. Thank you to the parent chaperones who took the time to join them and spend the day together.

Junior High Activities

Seventh Grade Birch Aquarium Field Trip

story contributed by David Roysdon, 7th grade teacher; photos by David Roysdon and Petra Lindquist

The 7th grade class went to Birch Aquarium on Tuesday to practice identifying marine life using their study of Taxonomy - scientific names. We explored the facility with intense activity trying to match the "Common Names" of the marine life with their scientific names. It was great to see the teamwork. We then went to La Jolla to have lunch and explore the tide pools. It was an amazing day. This was all in preparation for our trip to Catalina Island Marine Institute.
