

TEXAS PRIMARY CARE CONSORTIUM

**Working together to
address systemic
issues of healthcare
inequities, high costs
and lack of access**

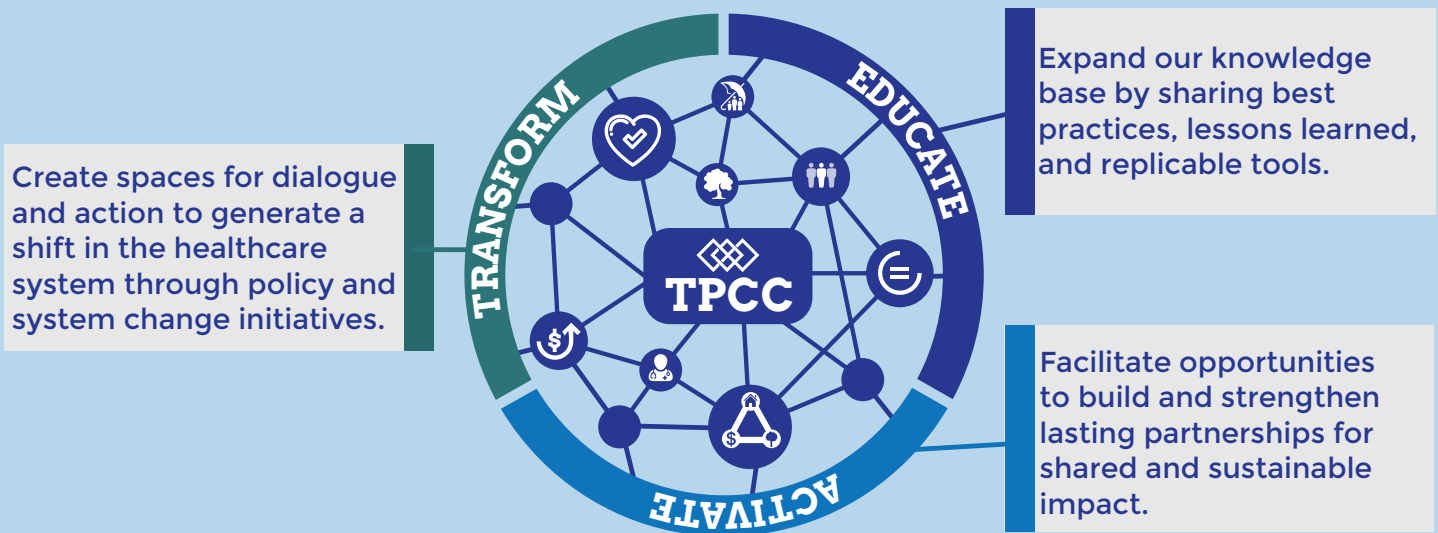

**MAKING PRIMARY CARE PRIMARY
Partnership Opportunities**

Primary care, when prioritized in the health system, **results in people living longer lives with more equitable outcomes.**

Yet primary care, with **chronically low funding and infrastructure investments**, is in danger, as highlighted by the COVID-19 pandemic.

Our goal as the Texas Primary Care Consortium is to facilitate collective action **to advance equitable, comprehensive, and sustainable primary care for all Texans.**

Through a combination of collective action and a network based approach, Texas Primary Care Consortium leads with the following framework:

Failure to recognize the value of primary care has contributed to Texas' suboptimal health ranking.

Join the state's **ONLY** multisectoral network focused on primary care in Texas.

Leverage the TPCC network to advance state and local policy actions.

Access timely updates and communications tailored for your networks.

Be a core driver in expanding and strengthening the primary care workforce.

Connect with other statewide primary care stakeholders.

Become an organizational partner for one of the following levels:

* Partner Benefits:	Legacy \$35,000	Foundational \$25,000	Sustainable \$15,000	Collaborator \$10,000
Recognized sponsor of research & reports	◇
