

## **BBI THRU-PUT WARRANTY STATEMENT**

Thru-put Amp/Hour warranty covers all “BBI” motive power batteries containing 9-33 plates per cell to be free of defects or workmanship for the period of up to 3000 discharges to 60% of the battery’s rated capacity for a period limited to 5 years from original date of manufacture.

BBI Thru-put Amp/Hour warranty applies only to batteries delivered for ‘fast-charge or opportunity’ charge application and limited to operating under charge rates not exceeding 45% of the 6hr. rated amp hour capacity of the battery.

BBI at its sole discretion will offer remedy for repair and/or replacement of the battery if it is found to be defective in construction or materials or failing to deliver 80% of its rated capacity when tested under BBI supervision.

Warranty excludes all freight costs for repair or replacement and / or warranty testing at BBI or its approved dealer.

### **APPLICATION LIMITATIONS**

- Batteries must be charged to 100% capacity and equalized on a weekly basis.
- Batteries must be maintained to insure correct acid volume and density in each cell insuring no plate exposure or change in acid density (1285 SG) due to over or under watering practices.
- Maintenance records must be retained on a monthly basis and submitted for all warranty remedy to apply.
- Batteries must be sized to accommodate the intended vehicle application’s maximum battery size and capacity.
- Batteries must be charged using a BBI battery approved high rate charger or competitors charger with BBI approval only.
- Batteries must be equipped with a BBI approved battery monitoring devices installed by the factory.
- Batteries must be operated at room temperature range not exceeding 120F or 48C.
- Batteries must not be discharged past 60% of their rated capacity more than three times per 24 hour period
- Batteries must be allowed one day (24 hr period) per week for 100% charging, equalizing and cool-down period.

Physical damages and inappropriate applications invalidate this warranty. Battery Builders, Inc., single and only liability for warranty remedy shall be to replace or repair the battery within the effective warranty period only. Battery Builders assumes no liability whatsoever in the event of any loss resulting from any event pertaining to the use, application and or implementation of this warranty.
