

## PHOTOGRAPHY

Do you like to capture the moment and explore other ways of looking at things around you?

Never before has there been such a demand for photographers. Whether planning a wedding, anniversary or just a party-to-remember or putting together a brochure or business document that demands high quality photographs, the possibilities for a stimulating career with high earnings are endless for professionals in this exciting field. Fashion and food magazines, as well as newspapers, are always on the lookout for new talent. Or you could open your own studio and photograph babies and families looking to capture their special memories.

Software programmes used in this course include Photoshop and Lightroom.

The one-year **Further Education and Training Certificate in Photography** is a fully comprehensive programme designed to qualify the budding photographer in the technical and business aspects of this dynamic industry.

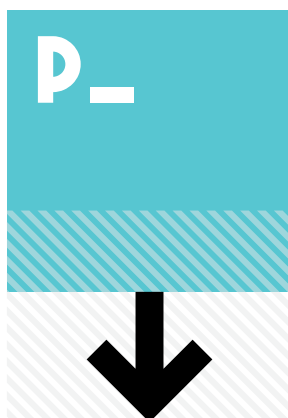

There are field trips during the year which will expose you to different styles of photography as well as different lighting techniques.

You will have the opportunity to showcase your work at the year-end photography exhibition.

The following subjects are included:

- Photography Practical
- Photography Theory
- Professional Development
- Digital Editing - Photoshop
- Academic Literacy
- Work Integrated Learning

**Admission requirements: Portfolio**
