

SOUND ENGINEERING

Is music your passion? Would you like to make it your career?

Then you need to attend a college that is committed to your success. At Oakfields College, you will study under seasoned instructors with industry experience who know what it takes to succeed.

During your two years studying sound engineering at Oakfields College, you will be taught on multi-platform software such as Cubase, ProTools and Adobe Premier. Our on-campus recording studios ensure that you gain lots of experience and become comfortable with the environment. There is also a full-time sound engineer on campus to help you with any questions and to give advice on anything you are working on. You will learn how to record an album and then edit, mix and master the recording session. You will also learn to set up your own recording studio as well as work within the live sound environment.

The diverse range of subjects included in this course gives you the ability and skills in many different aspects of sound engineering, enabling you to pursue and specialise in the area where your personal passions lie.

On completion of the first year **Further Education and Training Certificate in Music Industry – Sound Technology**, you will have the option to continue with the second year **National Certificate in Music Industry – Sound Technology**.

The following subjects are included:

Year 1

- Music Production I
- Digital Audio Workstation I
- Sound Theory
- Studio Craft I
- Professional Development
- Academic Literacy
- Intro to Electronics

Year2

- Audio Post Production
- Digital Audio Workstation II
- Live Sound Theory
- Live Sound Practical
- Professional Development II
- Electronics
- Music Production II
- Studio Craft II
- Work Integrated Learning
