

MAKE-UP & SPECIAL EFFECTS

Did you know you can use chocolate syrup to make fake blood? Or that you can use tissue paper to create a fake cut on a person's face?

The Oakfields College one-year make-up and special effects programme will have you creating more of your own artificial blood, bruises, cuts and scrapes than you will find in any Zombie Apocalypse movie. And we will even teach you how to make bald caps and work with latex.

You will be taught all aspects of make-up and special effects, from fashion make-up to stage and film make-up. Through practical applications you will have the opportunity and freedom to experiment and take your creativity to new levels. You will also be exposed to the new method of high-definition make-up artistry, various hairstyling techniques to suit your make-up themes as well as ageing and Fantasy make-up.

This one-year **Further Education and Training Certificate in Craft Enterprise (Make-up and Special Effects)** is an extremely practical course that will provide you with the knowledge to pursue an active career in make-up design. The programme will equip you with the practical and theoretical skills needed to enter what is a highly competitive industry, but one where numerous career paths and job opportunities abound. The course emphasis is on conceptualisation and innovation and we can't wait to teach you!

The following subjects are included:

- Fundamentals of Drawing and Painting
- Special Effects Practice
- Make-up Practice
- Academic Literacy
- Professional Development
- Work Integrated Learning
