

Foothold

POSITION: Production Carpenter

REPORTS TO: Production Manager

POSITION OVERVIEW: Individuals interested in joining Foothold's production team should possess experience in residential carpentry. Ideal candidates for this position would have interest in a variety of carpentry tasks, including structural framing, siding, roofing, flooring, trim, and drywall. Foothold seeks production carpenters who are self-directed, willing to work within a small team, and excited about being a part of a fast-growing operation.

JOB DESCRIPTION: Fabricate and assist with offsite production of Foothold's houses. Based at a factory in Butte, MT. Work will be 40hr/week. Work will take place indoors, with the end result being fully completed housing units. Depending on experience, production carpenters will take a lead role in the framing, sheeting, roofing siding, trim, and finish of completed housing units.

RESPONSIBILITIES:

- Structural framing of floor, walls, and roof
- Install of windows and doors
- Install siding and exterior insulation
- Install roofing materials per manufacturer specifications
- Install interior trim and finishes, including drywall, cabinets, flooring, and window and door trim
- Follows proper protocol according to Foothold's Quality Control manual
- Communicates in a timely manner with Production Manager regarding material and supply chain
- Adheres to established safety protocols
- Moves materials around factory as assigned
- Ensures a clean jobsite by cleaning debris

QUALIFICATIONS:

- Positive attitude and willingness to learn
- 0-3 years of carpentry experience
- Strong desire to contribute to the mission and values of Foothold
- Ability to perform manual labor

COMPENSATION: Production Carpenters will be paid hourly starting at \$20/hr, depending on experience. Comprehensive benefits will be provided. Opportunity for substantial performance based raise after 12 months.

WORK LOCATION: Foothold Factory in Butte, MT.
