**MEDIA KIT**

WINTER 2023

Meet Kelly! She is a color loving spacial designer that creates unique spaces for brands and individuals. Her designs can be seen in interiors (homes, retail stores, branded pop-ups, events), as well as exteriors (murals and public art installations) and also online (3D rendered houses for virtual events).

Kelly was born with a hot glue gun and paint brush in her hand. She can never stop creating, crafting, painting, building, ideating. She uses social media to help share her creative projects and teach others how to lean into their creativity. She is most passionate about inspiring others to create unique personal spaces that spark joy and feel like an extension of themselves.

Kelly splits her time between London, NYC and Florida and shares her travel escapades with her followers. Her love of travel has inspired her brand Kinsey Palms - colorful vacation rentals. The first Kinsey Palm location is in St. Petersburg, Florida and can be booked on AirBnB.

If Kelly isn't crafting or traveling she is probably thrifting. As a fashion lover she is always looking for unique items for her closet and loves to share these finds with her community. She hopes to inspire more people to buy clothing and furniture from second hand shops or upcycle items they already have into something new.

If you love color, tropical motifs, sparkle and patterns Kelly is your gail!
