

## Web Developer Intern (Full-Stack)

We are building an online platform to enable people to discover and build relationships with sustainable brands and non-profits. We are looking for a developer to create new solutions through firebase to enable product, customer, and brand management while assisting with the implementation of front-end content using Webflow.

Similar companies include DoneGood, Petit Vour, and Verishop.

### Responsibilities:

- Weekly status reports and meetings
- Be prepared to work with a small group of co-founders in an agile environment
- Understand the entire system architecture of our platform - from back to front to design, develop, and support high-quality, robust web-application development
- Create and implement an admin console to process orders, update a product catalog, manage merchant/user accounts, and send customer billing & shipping information to partnered affiliates
- Write, update, analyze, maintain, review, and rewrite programs using web applications

### Required skills:

- Have flexibility to work across architectures - building both frontend and backend
- Experience using Java, Python, HTML, CSS
- Basic knowledge of social media, website development
- Have exposure to Cloud, such as Azure, AWS, Google Cloud, IBM Cloud

### Additional skills are a plus:

- Great time management
- Fantastic communication skills
- Previous experience with Firebase
- Previous experience with Webflow
- Web-based backend development
- UI, UX, interactivity design experiences a huge plus
- Any experience with using and developing apps for iOS or Android also a bonus
