CARE INSTRUCTIONS

WOODEN SPHERE/WOODEN GALAXY

Please be aware that wood is a living material changing imperceptibly over time. All wood reacts to sunlight, humidity, temperature and can vary slightly in grain pattern and coloration.

The oak version is untreated and therefore easily absorbs dirt and grease. The black version is painted and making it able to withstand dirt and grease to some degree. When cleaning the product use only warm soap water and apply this on the entire surface. Dry immediately with a soft cloth to prevent water marks and stains. The grains of the oak version might raise when it comes in contact with water. Use fine sandpaper to smoothen the surface if needed.

Decoration use only!

All our products are made from genuine and long-lasting materials. Please follow this care instruction and treat and maintain your new item accordingly.

All products are designed in Copenhagen and produced within the European Union.
