## GREAT TASTE

Consistent from first to last cup.

We are the only better-for-you RTD iced tea that is fully available on tap.

The secret behind Evy's great taste is cold brewing just the right amount of organic ingredients for just the right amount of time to maximize the flavor profile and nutritional value. By controlling the temperature and time of processing, the end result is smooth, crisp, and flavorful - never bitter.

Cold brewing *usually* means brewing tea leaves in cold water for over 24 hours.

However, we have been able to expedite this process while keeping the same great taste. This innovation, along with our beverage concentration process, allows us to offer format alternatives designed specifically for schools, sports venues, and the like.
