

Warehouse Operations Management

CPD Training

Course Information

START TIME

9.30am

DELIVERY

Virtual

This unique CPD certified course will show you how to identify and develop your logistics strategy, as well as the tools and techniques to reduce costs throughout your operations, we will also show you how to maximise the opportunities offered by new warehousing technologies.

We will discuss materials handling and storage equipment solutions, we will also show the value of the supply chain as an integrated whole. The course will look at selecting and implementing Warehouse Management Systems (WMS) including the implementation of cross docking, staging and yard management.

All attendees will receive a full course pack to refer back to, and will have an opportunity to learn key insights on how to improve their operations.
