## Homeopathy: Beyond Mind And Body

Have you ever wondered what keeps you alive? What keeps you breathing without you willing it? What keeps the body functioning in all its amazing complexity without any conscious effort on your part?

The human entity is much more than the sum of its parts. Each one of us is even more than the sum of mind and body. Yet, conventional medicine would have us believe that drugs can manage and control human health as if we were machines begging to be tinkered with every now and then.

The truth is quite the opposite of this mechanical view of the human body. Homeopathy, on the other hand, addresses the very 'essence' of the individual, which includes our physical and mental make-up plus that special something that makes each one of us absolutely unique.

### What is MindHeal?

Make no mistake, if you do not root out disease at its source, it will return. So a heart condition 'managed' by drugs today could easily lead to a neurological problem if you use drugs to suppress the disease process. At MindHeal Homeopathy, we do not manage, control or suppress disease. We identify its root cause by using the Mind as the window to understanding each patient's unique constitutional make-up.

Did you know that your thought processes, mental make-up, life

choices and personality predispositions provide the homeopath valuable clues to your health and well-being?

### Self-Healing

The beauty of homeopathy is that it stimulates the body to heal itself. Yes, each of those little white pills contains a remedy that dovetails and connects perfectly and uniquely with your constitution, unlocking your body's ability to cure itself. What about diseases that are considered pathological, incurable and life-threatening such as cancer, autism, rheumatoid arthritis

Dr Anita Salunke

and HIV? MindHeal Homeopathy completely reverses and heals all disease, regardless how it is labelled.

### A Whole New You

Contrary to popular opinion, you cannot suffer from 'multiple diseases'. Illness is the result of a disease process is raging through the body and it gives rise to multiple symptoms, not diseases. Since homeopathy addresses the patient as a single entity and reverses the entire disease process, everything that ails the constitution is healed.

When this takes place, something almost magical happens. Every patient of mine undergoes a complete transformation. All that ails the body and mind is cured, leaving you not only healthier but happier too!
