Dining - Charlie Vergos' Rendezvous - \$200 Gift Certificate - Dinner for 4

For three generations, the Rendezvous has been in the alley, downstairs, behind 52 South Second in downtown Memphis. The City of Memphis named the alley Charlie Vergos' Rendezvous Alley. Memphis is the pork barbecue mecca of the world, and there are great joints in every nook and cranny of this town. We know how to eat right. And while everyone has a favorite, few can question that the Rendezvous is a quintessential Memphis experience. For over 70 years, the Vergos family has been serving their signature dry rub ribs in a basement through a downtown alley across from the Peabody Hotel. And while the world outside has changed considerably, very little has changed in that alley basement.

- Husband & wife ownership team (Sam and Sara) – Sam is an Army veteran (West Point graduate with service in the 2nd Ranger Battalion); Sara is a Chicago native with a background in marketing and a lifetime of experience in the hospitality industry.
- Both share a life-long passion for beer, food and good people and spent one year traveling the world to taste the best beer and meet their brewmasters throughout the United States, Mexico, South America, and Europe.
- Leading the beer program is Elsewhere Brewing Co.'s Director of Brewing Operations, Josh Watterson. A husband, dad, and Great American Beer Festival award-winning brewmaster, Josh has developed a robust line-up. Including classic European lagers, wheats, saisons, and sours

along with American pale ales, IPAs and stouts. Elsewhere's beers are diverse, approachable, and tirelessly crafted. We love the classics and we aim for improvement with each batch.

- The food program began with Sara and Sam's experiences in Argentina grilling all day with friends, practicing the religion of Asado. After meeting Chef Richard Oyarzun at the Argentine Food Festival in Atlanta, they collaborated to develop a unique and delicious menu of Argentine cuisine. They are now working with Chef Thomas Stewart as they seek to bring brewery food to the next level.

The Cause:

- Sam and Sara always have a passion for supporting our veterans and children in need – we like to be associated with “doers of good.” Sam sustained serious injuries during a military parachute training event; following his recovery, Sam and Sara sought to give back to Veteran-related causes to help those who have given themselves to serve their Country.

9. Rising Phoenix Group - had crafted Award Winning perfume/attar – FMV \$300

www.Etsy.com/shop/RisingPhoenixPerfume

From a past review by the Natural Perfume Editor of CaFleureBon: Musk Rose is deceptively simple in formulation; simple if you have access to some of the richest, aromatically unique distillations in the world. Russian rose centifolia is the center piece- light, bright and with the uncanny ability to 'clean' an oud of anything unkempt or even nearing a barnyard. It gives the impression of wild roses along roadsides and trail ways. An Indian distilled champa, again clean and fresh, adds apple blossom notes, which relieve the Indian staple of its unfair head-shop duties. The result is a silken face-in-flower rose, the same air-diluted aroma of the living plant. Musk is provided by yet another rare Indian distilled Hina attar* and everything is fixed into a traditional menstrum of sandalwood. This provides immense

longevity and surprising sillage. In fact, much of Musk Rose is a surprise- the cleanliness of the musk, the sweet, bright nature of the rose accord... 'musk' is definitely there, but in such a demure way I would call it "muskette" for this is not a heavy nor animalic rose. JK has managed to turn musk and oud into sunshine and sublime summer.

17. A Lockheed U2 Recon Challenge Coin actually flown on an “operationally sensitive” mission

Extract from BBC Article 12/10/20: Satellites – and drones – were intended to replace it. But the 65-year-old Lockheed U-2 is still at the top of its game, flying missions in an environment no other aircraft can operate in.

Nearly twice as wide as it is long, the Lockheed U-2 spy plane is one of the most distinctive aircraft in the United States Air Force – and the hardest aircraft to fly, earning itself the nickname “The Dragon Lady”.

The U-2’s 63 ft-long thin fuselage, two high-aspect, un-swept glider-like wings, and powerful engine are designed to rocket the plane higher than 70,000 ft – and, crucially, keep it there.

The U-2 operates at such height and at such a wafer-thin margin between its maximum speed and its stall speed that pilots call its cruising altitude “coffin corner”. The missions there last hours at a time.

At 70,000 ft and above, the “Dragon Lady” still has the stratosphere largely to itself, just as it did 65 years ago on its first flight. At these altitudes, the pilot is more astronaut than aviator. In the cocoon-like, pressurized cockpit of the U-2, wrapped in a bulky pressure suit with a large spherical helmet, the pilot breathes 100% oxygen. Some of the features of this kit can still be found on spacesuits in use today.

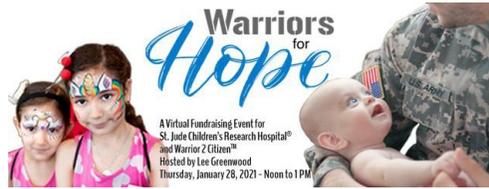

In air this thin the margins between living and dying are narrow. Indeed, the pilot faces the constant danger of hypoxia (lack of oxygen) and altitude-induced decompression sickness. Like any plane, the U-2 has to fly fast enough that the plane doesn’t stall and not so fast that the plane breaks up – the challenge for the U-2 pilot is that at 70,000 ft there may be only a few miles an hour difference. An accidental nudge on the controls could spell disaster.

26. Horse Soldier Straight Bourbon Whiskey #1

Established by a team of retired Green Berets, the American Freedom distillery took it upon themselves to give back to the veteran community by prioritizing the hiring of veterans and creating superb spirits that honor the bravery of our men and women in uniform. These include their Horse Soldier label – named after the soldiers who fought on horseback in Afghanistan in the months following 9/11. It is a wheated bourbon made from a mash bill consisting of 70% yellow dent corn, 20% wheat, and 10% barley. After being distilled, the bourbon spends a total of 8 years in new, charred American oak barrels to slowly develop its distinctive flavor profile before being bottled at a hearty 95 proof, the number being another callback to the horse soldiers as it was also their Special Forces Team Number. Each sip conveys a rich nose of musty oak, sweet corn, sugar cookie, vanilla cream, and leather notes, paving the way for an oak-driven palate supported by white pepper, oxtail candy, vanilla caramel, corked wine, and cookie dough undertones tied together by medium finish of vanilla, sweet corn, nutmeg, and touch of spice. <https://horsesoldierbourbon.com>
