

BABY & CHILD SAFETY

Shanina Knighton PhD RN

DURING COVID-19

PREVENTION IS BETTER THAN TREATMENT

- ★ **WASH YOUR HANDS** OFTEN WHEN INTERACTING WITH CHILDREN

- ★ **WASH THEIR HANDS** FREQUENTLY

YOU CAN USE A BABY WIPE

IF THEY ARE OVER 2 YEARS OLD YOU CAN USE HAND SANITIZER

MONITOR OLDER CHILDREN TO MAKE SURE THEY WASH (20 SECONDS) & DRY THEIR HANDS PROPERLY

- ★ **CLEAN THEIR TOYS**

OFTEN, ESPECIALLY IF THEY TOUCH THE FLOOR

- ★ **WIPE DOWN STROLLER HANDLES AND CAR SEATS**

ALL HUMANS ARE AT RISK FOR GETTING COVID-19

SYMPTOMS FOR CHILDREN MAY NOT BE AS SEVERE AS ADULTS BUT **BABIES & CHILDREN CAN PASS IT TO OTHERS**

MASKS

ARE NOT RECOMMENDED FOR CHILDREN UNDER 2

IF YOU ARE SICK, WEAR A MASK TO AVOID TRANSFERRING GERMS TO YOUR CHILD

AVOID PEOPLE TALKING OVER YOUR BABY

IT INCREASES THE RISK OF TRANSMISSION FROM DROPLETS THAT COULD FALL FROM PEOPLE'S MOUTHS

DON'T ALLOW ANYONE TO TOUCH YOUR CHILD'S HANDS

AVOID CROWDED PLACES ESPECIALLY WHEN YOUR KIDS ARE WITH YOU

- ★ **CLEAN YOUR PHONE**

BEFORE YOU LET YOUR CHILD TOUCH IT
