Endura Brackets™

The “Best in Class” Economy Roof Bracket and the toughest economy roof bracket on the market.

Designed for applications where consistent roof pitches and roof elevations are frequently encountered. **Endura's** fixed angle bracket is our best and most economical solution.

They feature a centrally mounted and welded steel ribbing plate with extra heavy duty welds which make them over 30% stronger than regular fixed roof brackets. **Endura** also provides a built-in cord and hose management system that helps prevent accidental tripping or falling.

AVAILABLE SIZES

- 2" x 6" x 45°
- 2" x 6" x 60°
- 2" x 6" x 90°
- 2" x 10" x 45°
- 2" x 10" x 60°

- Made from 1/8th inch steel
- Double-welded base plate fulcrum
- Reinforced ribbing that eliminates flexing under excess load conditions
- Steel plate welded to the load bearing fulcrum to improve strength and durability
- Bench tested to support 2000 lbs of load
