

# Culture Report Brief

October 2020

# Background/Methodology

ThinkNow conducted a nationwide online survey among American adults 18 to 64 years of age.

**Hispanics**

**501**

**African American**

**255**

**Asians**

**254**

## Methodology

### Survey Method

› Online via ThinkNow's Omnibus Study

### Field Timing

› July, 2020

### Base Size

› 501

### Screening Criteria

› 18 to 64 years of age

### Regional Coverage

› National

The terms “Hispanic” and “Latino/Latina” are preferred by the majority of US Latinos across different scenarios – in particular, when they or others (i.e. media, companies) refer to this population as a whole.

- Latinos are most likely to use their country of origin (i.e. Cuban, Mexican) when other Hispanics ask what race/ethnicity they are.

### Preferred Names for Various Scenarios Hispanics

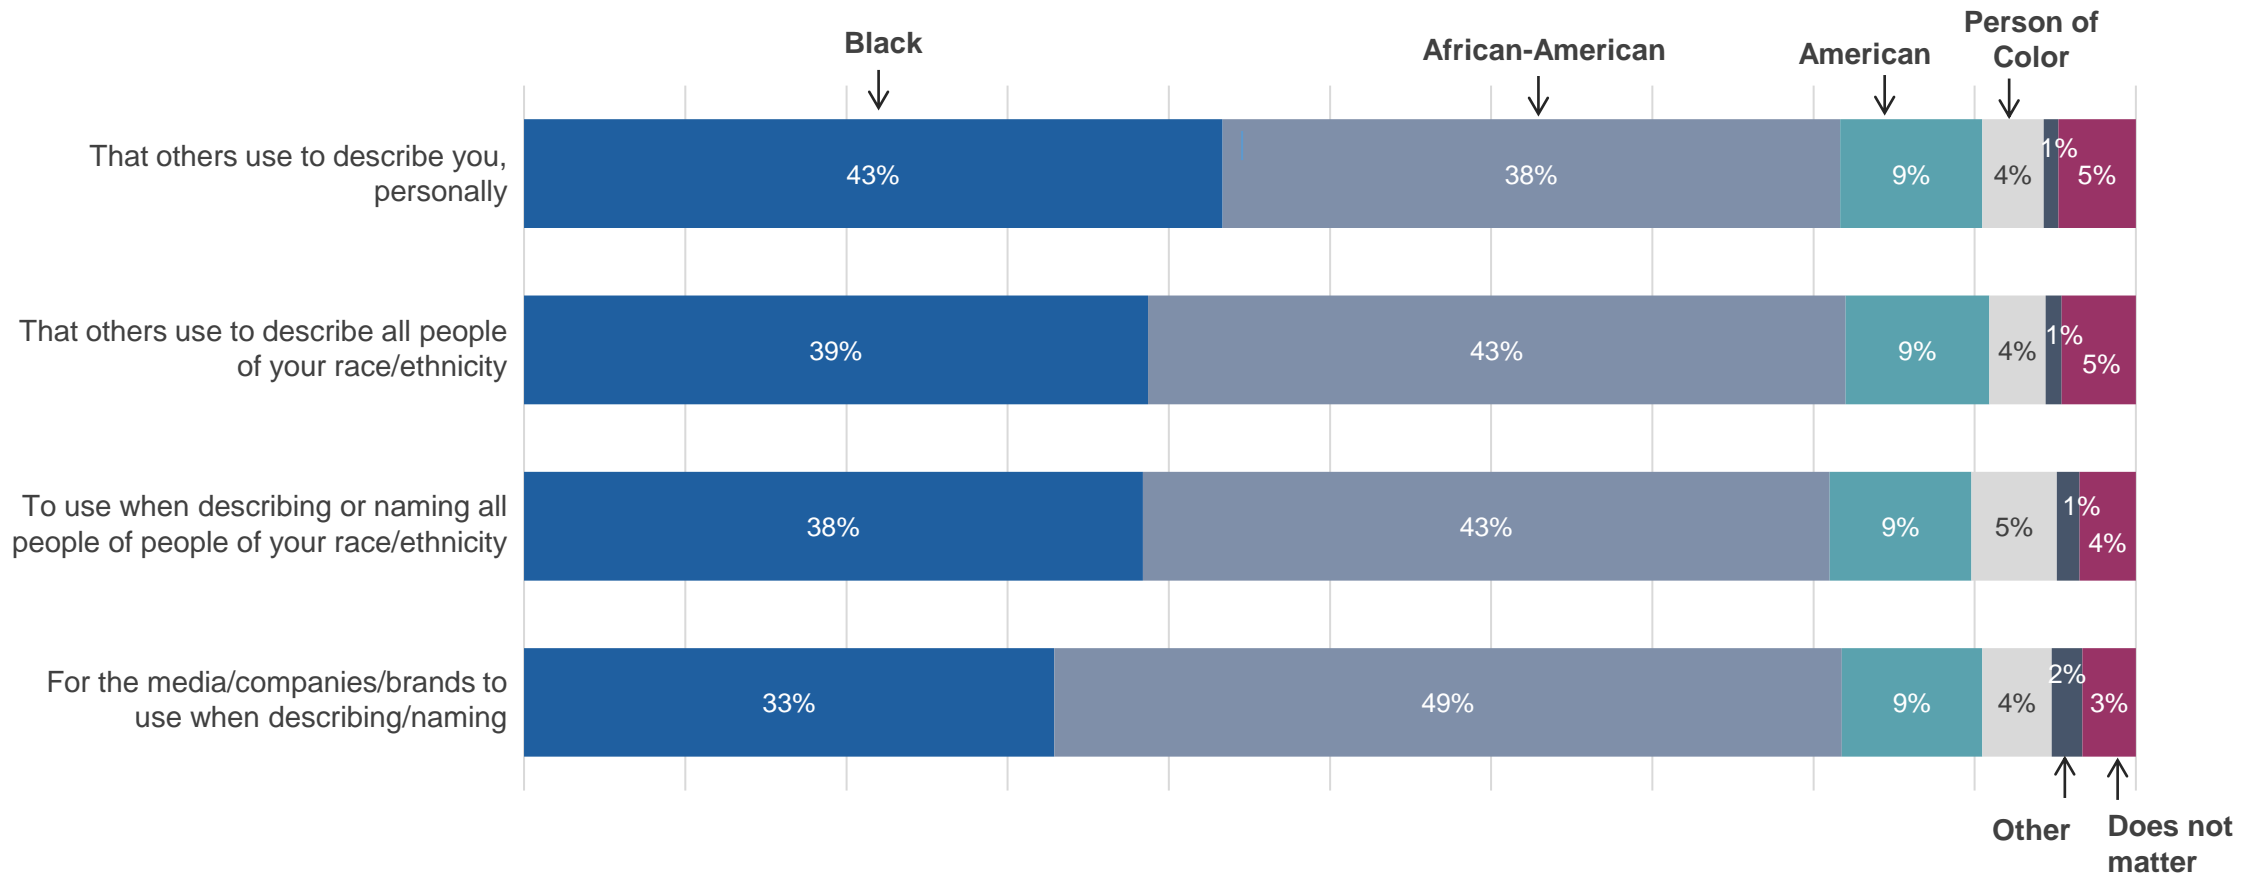

Hispanics (N=501)

## In most situations, African Americans are evenly split on their preference for “Black” and “African American.”

- When it comes to the media or companies/brands referring to them as a group, however, preference is stronger for “African Americans”.

### Preferred Names for Various Scenarios African-Americans

# Asians are evenly split on “Asian Americans” and “Asians”

*Preferred Names for Various Scenarios*  
**Asians**

Asians (N=254)

# Participant Profile

	Total Market	Hispanics	African-Americans	Asians
<i>Base size</i>	(1525)	(501)	(255)	(254)
