

OUR PATIO IS OPEN

It's time again to enjoy great food, great times and great friends. This information is designed to let you know about what we are doing to keep your visit safe while you are enjoying our hospitality during your visit.

We have rigorous measures in place at our restaurant to ensure you have a safe and happy visit.

BEST PRACTICES IN HYGIENE AND HEALTH

We are creating a safe environment for our customers and our team members by leveraging hygiene and health best practices.

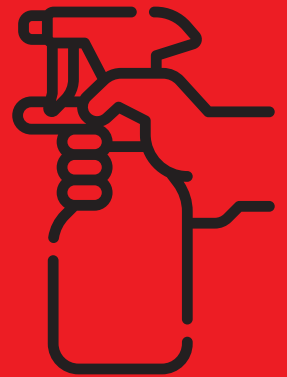

- Our team members have their temperature taken each day
- We practice vigilant hand washing
- We use disposable polybags for transactions using our payment systems
- We have made contactless access to our menu, beverage lineup and features available through QR codes accessible on your smartphone
- We offer single-use menus for those who prefer looking at a menu in print
- All staff have the option to wear face masks

RELENTLESS CLEANING

We have extended our normal cleaning and sanitation processes to include:

- Every table and chairs are sanitized after every single use
- High traffic areas are cleaned frequently
- No items are left on the table except the single-use or QR code menu
- All condiments when requested are sanitized before and after every use
- Washrooms, door handles and surfaces are cleaned continuously

ACHIEVING PHYSICAL DISTANCING

We are working hard to keep proper distancing and separation.

- We have removed tables throughout the patio to maintain 6 feet of distance between tables
- We are limiting restroom usage to one person at a time
- We have asked our team members to keep 2 meters apart wherever possible
