

# Gustavo Nascimento

iOS Developer | based in Belgium | [www.gustavonascimento.com](http://www.gustavonascimento.com)

I've developed apps featured by Apple, and SDKs used by companies such as Uber and Samsung. My code runs on millions of devices every day.

## Experience

### Tricount (Freelance)

iOS Developer | Swift | 2019 – Present

*App featured on the App Store & in international press*

- Worked as the only iOS developer for app with 1M+ of monthly users
- Integrated credit-card payments and ads, increasing monthly revenue by over 900%
- Created new screens with RxSwift and MVVM
- Composed the architecture with different modules: persistence, network, adapters, etc.

### More freelance projects

iOS Developer | Swift | 2018 – 2019

*The Voice, Tomorrowland, Brussels Airport, etc.*

- Created a modular ad SDK that could integrate with iOS and React Native projects
- Brought in €100,000+ of ad revenue to Belgium's and Holland's biggest news apps through homemade ad SDKs
- Completed project 2 weeks ahead of schedule

### Sentiance

iOS Developer & Squad leader | Objective-C | 2016 – 2018

*SDK used by Uber & Samsung among others*

- Promoted to Squad Lead and scaled mobile team to 5 people
- Refactored the whole SDK while maintaining the old code base
- Increased test coverage by 50%
- Reduced battery usage to 5%/day for a 24/7 running period

### Immoweb

iOS Developer | Swift | 2015 – 2016

*Belgium's leading real estate platform*

- Increased test coverage by 15%
- Reduced crash rates to less than 0.4%

### Gengo

Backend Developer Intern | Python & Go | 2014

*Web-based translation platform*

- Implemented new features with Python and Pyramid
- Implemented new API endpoints with Go
- Created a Swift client during my free time

## My apps

### Strongify – Workout tracker app

iOS Developer | Swift

[Landing page](#) | [App Store](#)

- Single-handily developed & designed from scratch
- Ran marketing campaigns generating 30,000+ downloads after a couple of days
- Implemented widgets and Apple Watch support

### Serica – Chinese flashcard app

Mobile Developer | Flutter

[Landing page](#) | [App Store](#) | [Google Play Store](#)

- Single-handily developed from scratch
- Implemented custom spaced repetition algorithm
- Created an SQLite database holding 100,000+ Chinese definitions

## Education

### ULB (Brussels) – 2014 | ICU (Tokyo) – 2012

Master's Degree in Computer Science, graduated with Great Honor

## Skills

Swift	Core Location
SwiftUI	Core Motion
Objective-C	AdMob
Flutter	Xcode Instruments
Go	SQLite
Python	Viper/MVC/MVVM
Auto Layout	Core Data
