PRESIDENT'S REPORT | March 2019

Thank you all who attended our program on Horticulture Lighting last month. This event was well attended and examined the technical aspects of grow facilities. Thank you to Bright Focus Sales and Barron Lighting Group for sponsoring an informative presentation!

Building upon the successful Fundamentals of Lighting class the past few years, we have decided to upgrade to an intermediate class: Interior Lighting Design (View Flyer). This 8-week program, starting March 26, will build on the basics delivered in Lighting Fundamentals. It is perfect for anyone interested in quality interior design. Please visit our Education Page or contact Marian Perez for more information.

Our Emerging Professional group is preparing for their first-ever Luminaire Design Competition! LightenUp:2019 (View Flyer) is a lighting design competition organized by the Illuminating Engineering Society (IES) and Cleveland Section Board of Managers to inspire and energize Emerging Professionals (EP) in their understanding of fixture development and application. This inaugural competition, in conjunction with 20 other sections around the country, looks to provide a collaborative environment between new and experienced engineers, architects and designers, fostering communication and creativity. Not to mention the winner will get their fixture fabricated at

ADVERTISERS

Halper Lighting Studios and a generous cash prize. Details are still in the works, so stay tuned for more information. Contact [Josiah Schleicher](#) and/or [Bob Halper](#) for additional information.

You don't want to miss our next event on Thursday, March 21 at the Hilton Garden Inn Downtown. The State of Ohio's own John Greenhalge will be presenting on Engineering Ethics. Please join us for an informative program!

Our program year is fully booked! Upcoming events include Driverless LEDs, a GE Sponsored program. Stay tuned for dates and venues, but in the meantime, if you would like to sponsor an event or suggest a speaker for next program year (2019–2020), please contact our Program Chair [Sean Keenan](#).

And finally, our next Board of Managers meeting will be held on Friday, March 15 at noon via conference call. These meetings are open to all of our members. If you would like to get involved, please let [Henry Barker](#) know and he will add you to the meeting invitation.

I look forward to seeing you at our March program!

Upcoming Event

Engineering & Surveying Laws, Rules, and Ethics

*Presented by: John Greenhalge, Executive Director of
Ohio State Board of PEs & PSs*

This presentation will cover Ohio's Code of Ethics for Professional Engineers and Surveyors [Ohio Administrative Code 4733-35] and discuss some of the most common ethical violations investigated by the Board. This program will fulfill the newly enacted requirement in House Bill 236 requiring those professional engineers and surveyors complete at least two hours of continuing professional development on professional ethics or rules relevant to the practice of engineering or surveying each biennial renewal period.

Our speaker, John F. Greenhalge, is the Executive Director of the Ohio State Board of Registration for Professional Engineers and Surveyors. John has been with the Board since 1998, previously serving as the Board's Enforcement Supervisor and as the Assistant Executive Director. Prior to joining the Board John worked as an investigator for the Franklin County Prosecuting Attorney's office in Columbus, Ohio and as a loss prevention and human resources investigator for Sears Roebuck & Co. John has a Bachelor of Science degree in Business Administration and a Masters of Business Administration degree from Ashland University.

John has served on numerous national committees for the National Council of Examiners for Engineering and Surveying (NCEES) including the Committee on Law Enforcement, the NCEES Leadership Task Force, and the Member Board Administrators Committee. John is a recipient of the NCEES Distinguished Service Award for outstanding service to the Central Zone, NCEES, and the engineering and surveying profession.
