## PRESIDENT'S REPORT | November 2019

Thank you to all who attended the *IES Clambake and Game Night*. We shared some “spooky” lighting stories and had some balloon worthy trivia answers. A round of applause to the winners of the night: the GREEN table. Also, thank you to Bob Doherty and Dyke Riffle for hosting the night of fun; and a big thank you to Wolff Bros. Supply for sponsoring the event!

Next on our list of events, we have *The Uses and Advantages of Emergency Lighting Technology*, scheduled for **Thursday, November 21 at 11:30 a.m.** at the Hilton Garden Inn at 1100 Carnegie Avenue, Cleveland, Ohio. Steven Surges with Myers Emergency Power Systems will be presenting on the uses and advantages of the emergency lighting technology; how to appropriately size inverters for specific projects; and the applications utilizing the technology today.

Please [sign up on our event page](#). **RSVP by Tuesday, November 19.** Thank you, Lighting & Controls, for sponsoring this event!

We continue to expand on our upcoming monthly IES programs and if you have other topics you would like to hear contact our Program Chair, [Sean Keenan](#).

## ADVERTISERS

Finally, our next Board of Managers meeting will be held on Friday, November 15 at noon via conference call. These meetings are open to all of our members. If you would like to get involved, please let [Henry Barker](#) know and he will add you to the meeting invitation.

I look forward to seeing you at the November Program!

## Upcoming Event

### Uses and Advantages of Emergency Lighting Technology

*Presented by: Steven Surges, Myers Emergency Power Systems*

As the LED economy continues to advance and rapidly grow, so does the use of lighting inverters on projects. Myers EPS, the leading experts in inverter technology, will be presenting on the uses and advantages of the emergency lighting technology; how to appropriately size inverters for specific projects; and the applications utilizing the technology today.

About the speaker: Steven Surges is the northern regional sales manager for Myers Emergency Power Systems for the past 2-1/2 years. Before joining Myers EPS, he developed a well-rounded background in the electrical industry. As a fourth-generation master electrician, Surges worked for electrical contractors as a vice president, chief estimator, and project manager. Now residing in Cincinnati, he also worked as a sales agent manufacturer representative for APC by Schneider Electric, and most recently as the business development manager for Power Distribution at Graybar.
