

Building a Better Digital Healthcare Experience

Collective Health simplifies employee healthcare with an integrated technology solution that makes healthcare work for everyone. With nearly a quarter of a million members and over 50 clients—including Driscoll’s, Pinterest, Red Bull, Restoration Hardware (RH), and more—Collective Health is reinventing the healthcare experience for forward-thinking organizations and their people across the U.S.

PROBLEM

After acquiring funding, Collective Health came to Admios to **scale their engineering resources to increase product velocity**. Admios provided resources for a number of different teams and product features.

APPROACH

Admios provided a team of 5 developers to build out and maintain new features for their admin and member portals, which included: **member/group management, registration and onboarding, claim management, and member insurance eligibility**. Team composition was 3 FE, 1 BE, and 1 iOS.

RESULTS

By building new features quickly, the company was able to continue rapid growth and partner with innovative companies across healthcare delivery and diagnostics to **meet the most pressing healthcare challenges for employers today**.

Stack Used

OVERVIEW

Industry:
Health Insurance
Company Size:
500
Dev Team Size:
5 Admios Devs

KEY RESULTS

Increase in
product velocity

Seamless app and
web-based **user experience**

New features **for admin and member portal**
