## SUMMARY

Self-driven, enthusiastic industrial design student at Carnegie Mellon University fascinated by the intersection of design and psychology to take a personal approach to design to improve quality of life. 6+ years experience using design and psychology hands-on as a teacher to students of a variety of ages to help learn in the most effective and engaging way. Seeking a position to combine human-grounded research with design in a motivated, collaborative environment.

## EDUCATION

Sept 2018 - **Carnegie Mellon University** | Pittsburgh, PA  
May 2022 *School of Design pursuing a Bachelor in Design*  
*Concentration in Product Design, Minor in Psychology*  
*3.88/4.0 GPA, Dean's List*

## EXPERIENCE

Aug 2019 - **Teaching Assistant / Recitation Leader** | Pittsburgh, PA  
Dec 2020 *Carnegie Mellon University Psychology Department*

Redesigned existing digital lesson materials to emphasize key terms and points for easier comprehension. Mentored design students in the Introduction to Psychology course to connect psychology concepts to their studies, resulting in an increased design student retention rate when compared to prior years.

Sept 2013 - **Sunday School Teacher** | Hollis, NH  
May 2018 *Congregational Church of Hollis*

Designed and executed lesson plans and activities for fifth and sixth grade students. Organized the Lenten Service Project, teaching children about service to others through a hands-on fundraiser, raising over \$4,000 in donations and supplies for local groups in need, chosen each year by the students.
