

Student declaration

As a centre we need to determine as much confidence as possible to submit an assessed grade to the exam board.

According to the exam board, JCQ and Ofqual's guidelines, any evidence submitted by a student or their private tutor would be categorised as low confidence by AEC TUTORS.

We as a centre need to determine medium to high confidence in your understanding and subject knowledge. For evidence to be categorised as medium confidence a remote face-to-face evidence validation session is required. During the remote validation session, the students understanding of the subject content covered in particular pieces of evidence will be probed in order to gain confidence that this is the students own work.

To determine high confidence in the exam Candidates competency in the subject we suggest exam Candidates undertake additional assessment/s set by our subject teachers and observed remotely by our centre staff. The centre will devise a mock assessment targeting a specific area of the specification. The mock assessments will not consist of past papers in the public domain.

I declare the following:

I have read the above and been made aware of how AEC Tutors will submit an assessed grade to the exam board for my subject and qualification.

I am fully aware AEC Tutors will be submitting assessed grades to the required exam board for my subject/s and will not be sharing or issuing me the grades.

I am fully aware the assessed grades will not be the final grade and is subject to change as the exam board will make the final decision and award me, using the information AEC Tutors provide, Ofqual guidelines and national averages.

I have provided AEC Tutors with a true reflection of the subject knowledge that I have covered.

All work submitted to AEC through my tutor or school is my own work.
