

Deal With Drought WHISPERS®

Your direct interactions with trees and Nature can make the difference in a drought. These Whispers will empower you, too. You can be in wise partnership with planetary forces and with Nature's living Beings.

Whispers provide the specific instructions Nature Beings need in order to heal themselves and so that the Elements might come back into balance. These intentional messages offered from the caring heart, open mind, and deep soul help stressed trees and heal ecological damage. They come from 20 years of R&D and are spirit-inspired. Filled with powerful energy and vitality, they have been shown as very effective.

Whispers can be done quietly or aloud, by yourself, or in a group. Do them regularly in your backyard or a public park. They will take about 15 minutes. Focusing your conscious attention makes them work better.

Please don't make any changes. Share widely. Credit Jim Conroy and Basia Alexander.

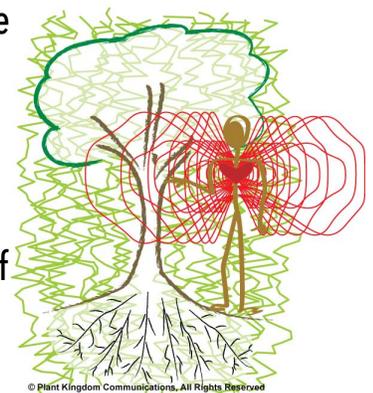

Note 1: We remind you, rain alone does not mean that the inner functionality of trees, plants, and other living Beings can take in that water and automatically become healthy again. Their systems must be ABLE to use it. Prolonged drought compromises their ability to use water. In addition to fostering inner health, these Whispers prepare them to use the liquid water or vapor they have now in an effective way internally.

Note 2: Some of the steps won't make sense but will work even if you don't understand.

Note 3: There is no quick version of these Whispers. In order to be effective, the entire process must be completed in full because of the complex interactions involved in dealing with drought for trees, plants, and other ecosystem members. Check for future updates.

BEGIN HERE. You are a Facilitator!

- * Remember: You do not MAKE anything happen. You serve as a facilitator by ASKING Divine Forces: Light, Life Force, Spirit, Universal Rhythm, Nature's deep intelligence or consciousness, Elemental Forces, and other Invisible Helpers to do these things in a drought for your trees and plants, ecosystem members, and conscious forms such as mountains.
- * Take your time; feel mindful or meditative. Imagine you are in a protective ball of LIGHT.
- * If possible, go outside and be near your tree. You may touch or tap the trunk of your tree. You are in a bioenergy overlap with it. Don't be surprised if you think that you hear, see, or feel "messages."
- * Ask permission: "I'd like to do these DROUGHT WHISPERS with you. Will you be a stand-in for trees and all ecosystem members in drought?" If you perceive a "yes", take a moment to come from the tree's point of view—as if seeing through its 'eyes' or feeling through its 'senses.'
- * If you think you get an instruction from your tree, trust it, do it.
- * Allow yourself to feel empowered and inspired.
- * Breathe and slowly say each of the following Whispers either quietly or aloud. You should feel good or positive as you continue. If you don't, stop and try later.

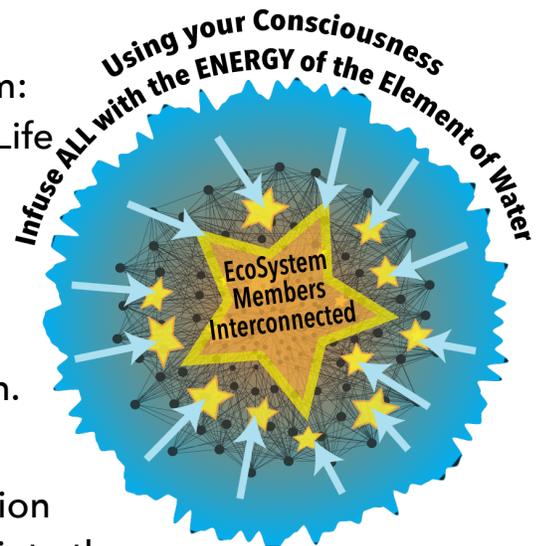

1. "I would like to connect—in humility—with the LIGHT inside of me and the LIGHT in all of Nature. I am also a Nature Being and Nature's Partner. I ask DIVINE FORCES to help in all these Whispers. I am focused on drought right here—or locally, regionally, globally.
2. "Divine Forces, please cleanse me, all Beings of Nature, and conscious forms here, nearby, or even globally. Release to transformation any stuck, negative, or distorted energies or forms. Fill all, including me, with Life Energy.
3. "Elemental Forces and Physical Elements: interact in balance with each other – in the LIGHT and in Universal Rhythm. I acknowledge you:
 - Element of EARTH for connection, grounding, and growth.
 - Element of AIR for connection, flow, and breath.
 - Element of FIRE for connection, biochemical reactions, food production, and photosynthesis.
 - Element of WATER in all your forms for connection, remembrance, and to support life.
4. "Dimensional ENERGY and CONSCIOUSNESS of WATER: Please be infused into the dimensional level (or spirit) of each and all ecosystem members. *[pause and breathe]* Beings of Nature and WATER, be in a collaborative relationship with each other. Via that collaborative relationship, water ENERGY Spirals from dimensional spaces into The Physical as H²O inside of living systems.

Context

Create the Conditions:

5. "Light Energy, Life Energy, and Universal Rhythm: Connect and interconnect the bioenergies and Life Force within and between all ecosystem members and conscious forms.
 - (trees, plants, animals, birds, insects, bees, soil, micro-organisms, fungi, water-organisms, any other organisms, minerals, the oceans and waterways, the land and the mountains, structures, and people)
 Bring them all into community. Drive connection. Connection drives flow.

6. "Connection and Flow drive Spiraling. Connection and Flow allow the ELEMENT of water to come into the dimensional Spiraling.
7. "Blocking energies: Be more discerning and move into alignment with connection and flowing energies by coming into Universal Rhythm in the Light.

8. "Divine Forces: Increase connection with knitting, bridging, meshing, and criss-crossing. Enclose the whole so that water ENERGY can seep into Spiraling at dimensional levels, then penetrate into The Physical at the right time.
9. "Food Energies and Fluid Energies: Circulate clearly, even in a thin stream. Move into parts. Be distributed efficiently to leaf-buds, roots, and vascular tubes for survival, and possibly for growth.
10. "Elements: support functionality in balance in the Physical. Re-Integrate.
11. "Consciousness of Living Beings: Give some priority to adding more Xylem and Phloem tubes (as appropriate) for easier flow of fluids and food and to help compensate for drought conditions. Be more connected to the sun to make food. Re-align with your blueprints, goals, and purposes. Optimize and reconfigure so existing water can be properly used. Emerge out of Spiraling in sync with the Universe, and in cyclical flow to The Physical.
12. "Dimensional ENERGY and CONSCIOUSNESS of WATER: Please be infused into the dimensional level (or spirit) of each and all ecosystem members *[pause and breathe]* Beings of Nature and WATER, be in a collaborative relationship with each other. Via that collaborative relationship, water ENERGY Spirals from dimensional spaces into The Physical as H₂O inside of living systems.
13. "Elemental Forces, Synergies, Elements, and Artisans of Form: hold the new whole together greater than the sum of parts, cycle dimensional to physical to dimensional, balance to extremes, and carry these Whispers out in the Light.
14. "Spirit of Humanity: Please awaken! I ask that humanity's relationship with Nature, with Water, and with all of the Elements comes into balance as a true collaborative partnership so people, Nature, and the Elements can co-create a livable planet.
15. "I, _____, love all living Beings and this planet. I connect, communicate, collaborate, and co-create. On their behalf, I have asked these things so that they and I—and our world—can survive and thrive as one on a livable planet.
16. "I give thanks to Spirit, Light and Divine Forces, to the Elements, to the Artisans of Form, to all living Beings and conscious forms, and to myself for doing these Whispers."
