

## Self-Isolation Preparation Form

The following questionnaire is for our international students' arrival back to Canada for the 2020-21 academic year. Please note that it is required that your child return to Canada on August 24th, 2020, 14 days prior to school starting on September 8th, 2020 to self-isolate. The information you submit via this form will help us determine if you require special assistance with your self isolation plan or if you will be required to make personal arrangements. We are here to support you and your individual needs the best we can during this challenging time.
