

A SAFE IT SOLUTION FOR FEDERAL AGENCIES

Zero Contact. Zero loss.

Agencies are struggling to find a COVID solution for supporting staff and servicing IT equipment - without shipping or losing inventory. We provide executive care and staff support anytime of day. Retrieve replacement devices or get equipment serviced or repaired. Live technicians keep your staff working with minimal downtime by providing support through the Connect2IT! Kiosk and Smart Locker.

Benefits of Personalized Support

Keep your personnel safe and secure with personalized IT support around the clock. Our remote IT experts are ready, any time of day, so your staff can feel safe at work and supported.

Remote IT experts.

Live technician accessibility through secure video and network connections, providing high quality socially distant service.

Cost effective.

Centrally located IT experts reduce the cost of on-site technicians, gaining economies of scale and eliminating costs for lost inventory.

Any time of day.

Live customer support (6 feet or 600 miles away) secured at your organization's HQ, District or Regional offices – no appointments.

Streamlined Safe IT Support

A Personalized IT Solution for Federal Agencies

A one-stop Kiosk and Smart Locker system that offers advanced troubleshooting and hardware repair or replacement.

Keep your IT devices secure within agency walls by leveraging the locker to quickly exchange a device that needs more work with a loaner, replacement or refreshed device. Software upgrades or refreshes can even be performed from within the locker. Get your staff back to work with little to no downtime or delays.

Secure

Secure technician/customer interaction using innovative technology and unique pin access – socially distant and no contact for customers.

Compliant

Equipped with Section 508 and ADA compliant screen reader, text zoom & headphone access.

Compatible

Customer access to expert technicians for PC & iOS/Android devices (laptops, phones & tablets) for troubleshooting, triage, refresh or replacement.

Reliable

Expert badged IT support 24/7-365, providing enhanced asset tracking, keeping PCs secure and easily monitored – remotely.
