

# Discover

## Stage 1

Use the wheel to identify a wide range of information relevant to the problem statement.

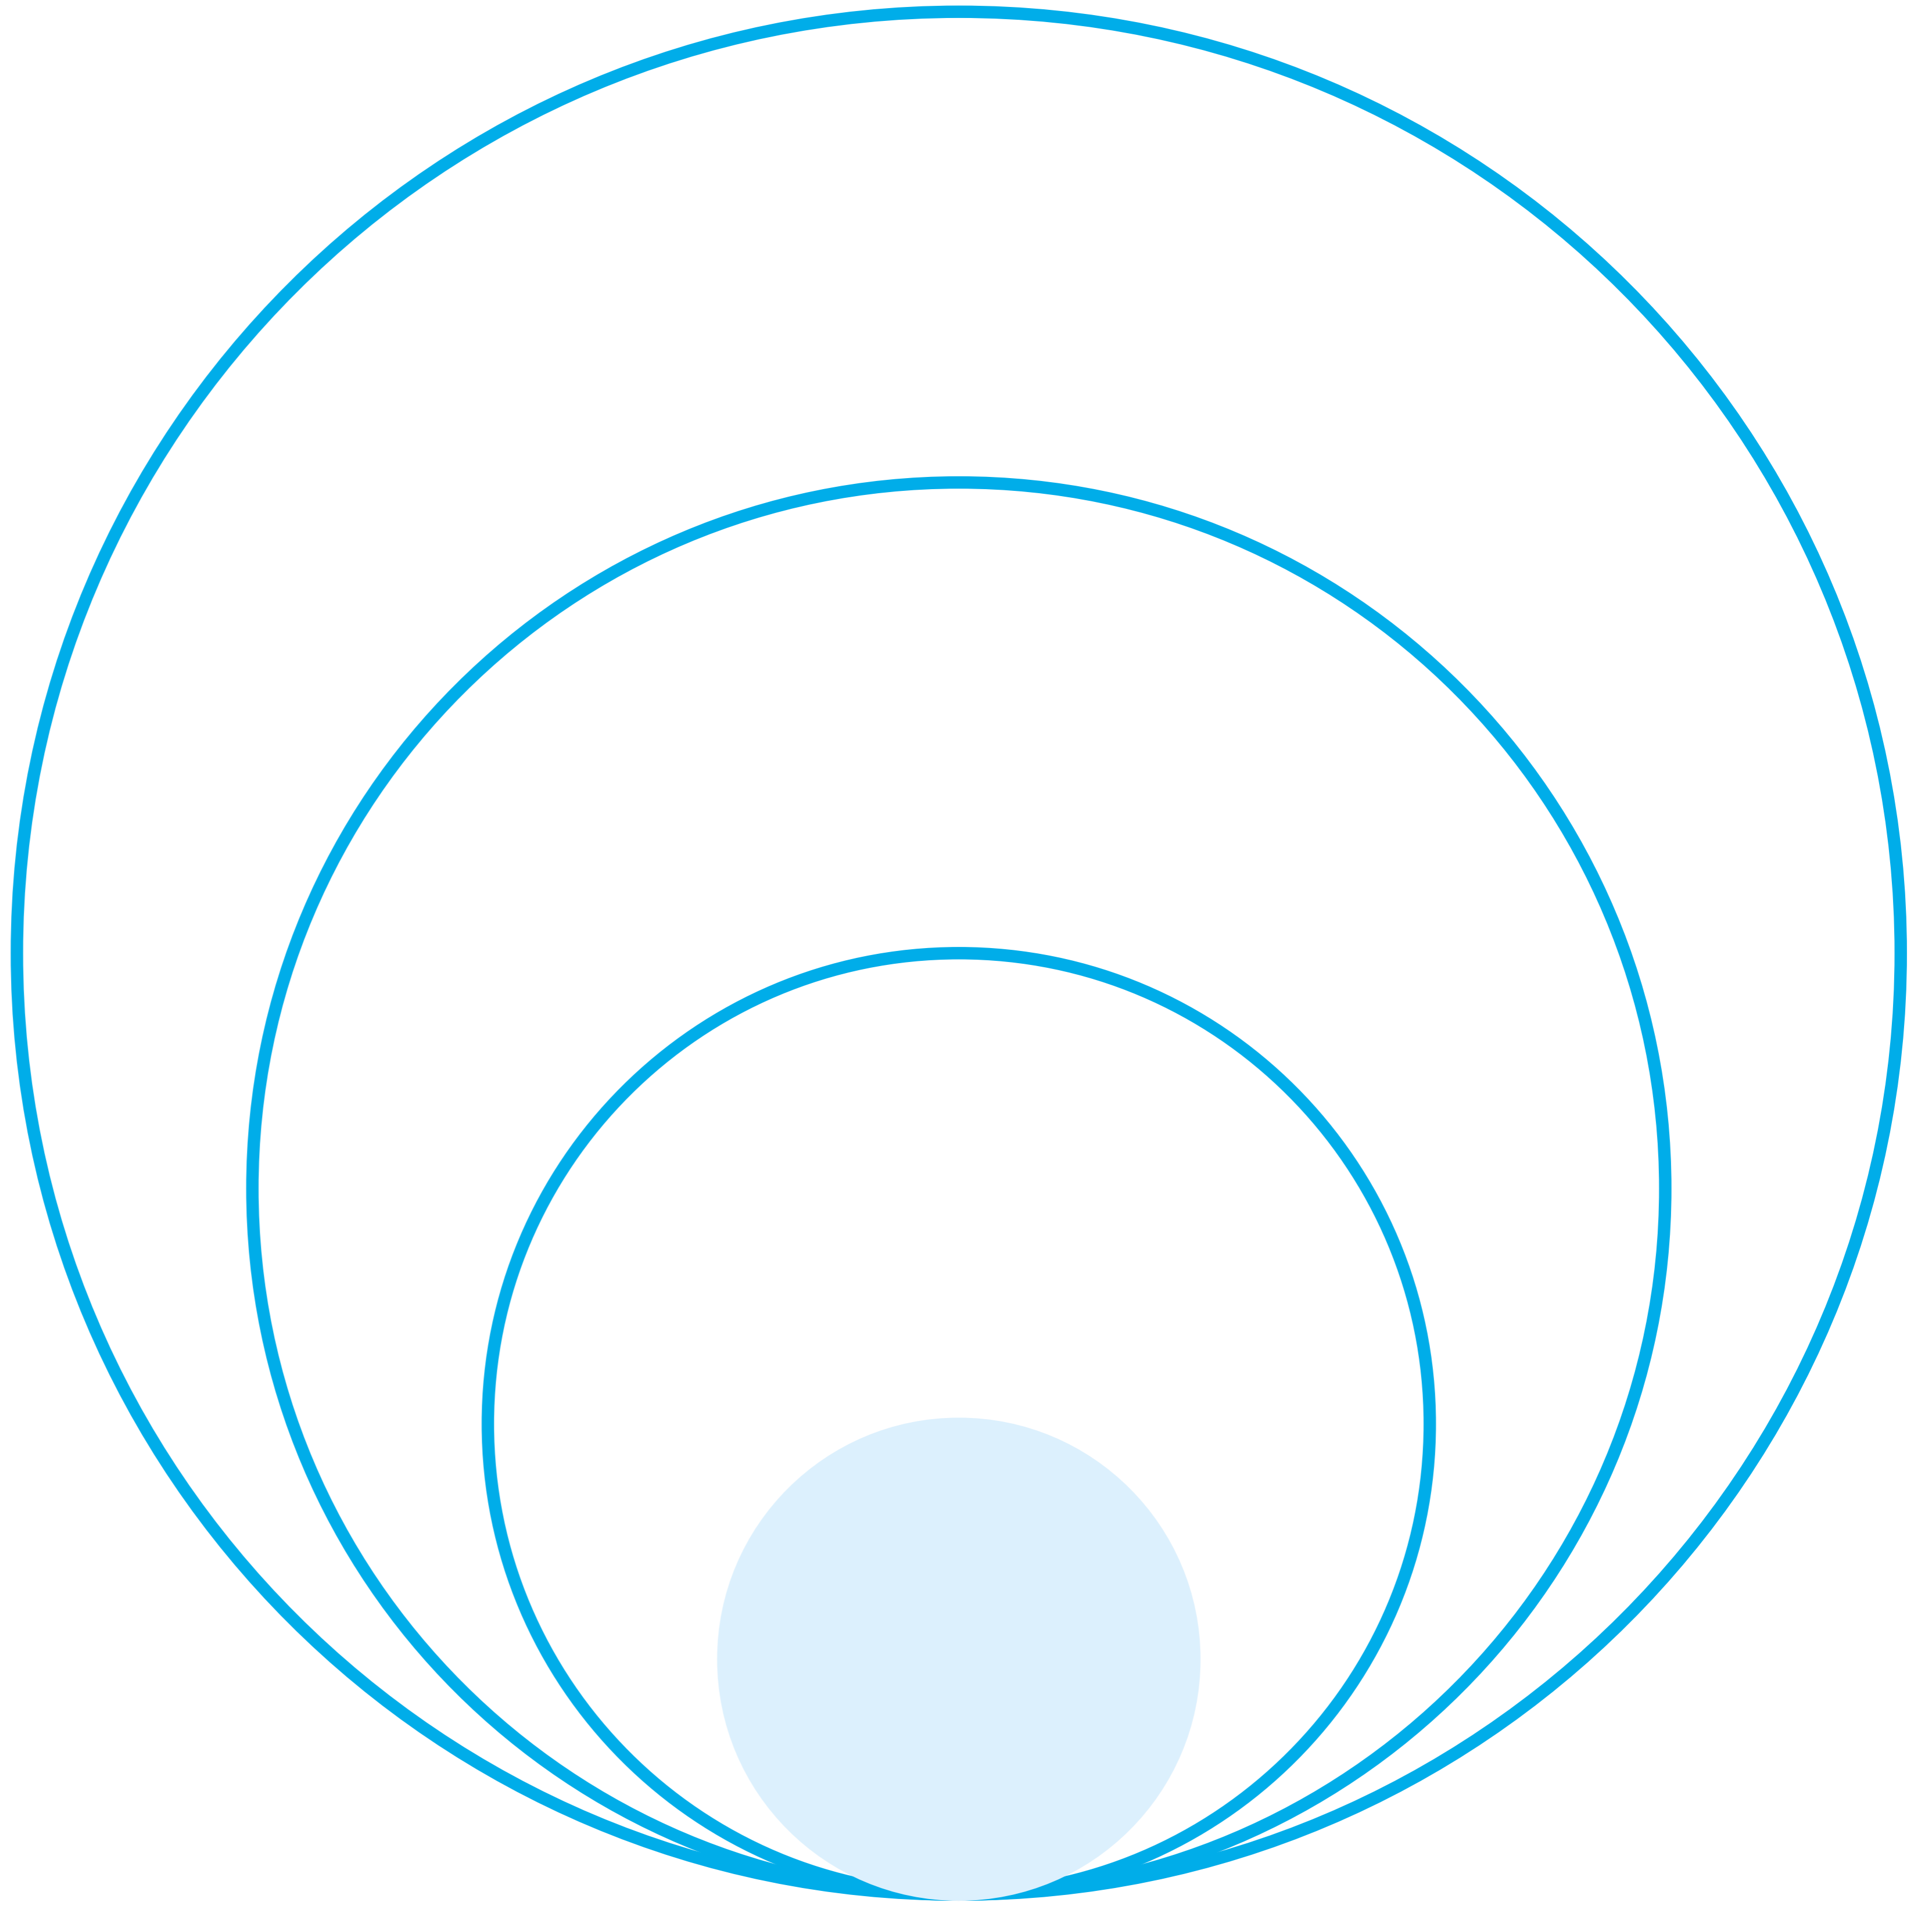

A large rectangular box with rounded corners, outlined in blue. Inside the box, there are five horizontal dotted lines spaced evenly down the page, providing a space for writing notes or observations.

# Define

## Stage 2

Organise the information into themes, arriving at the real problem you want to solve. Spell out your aims.

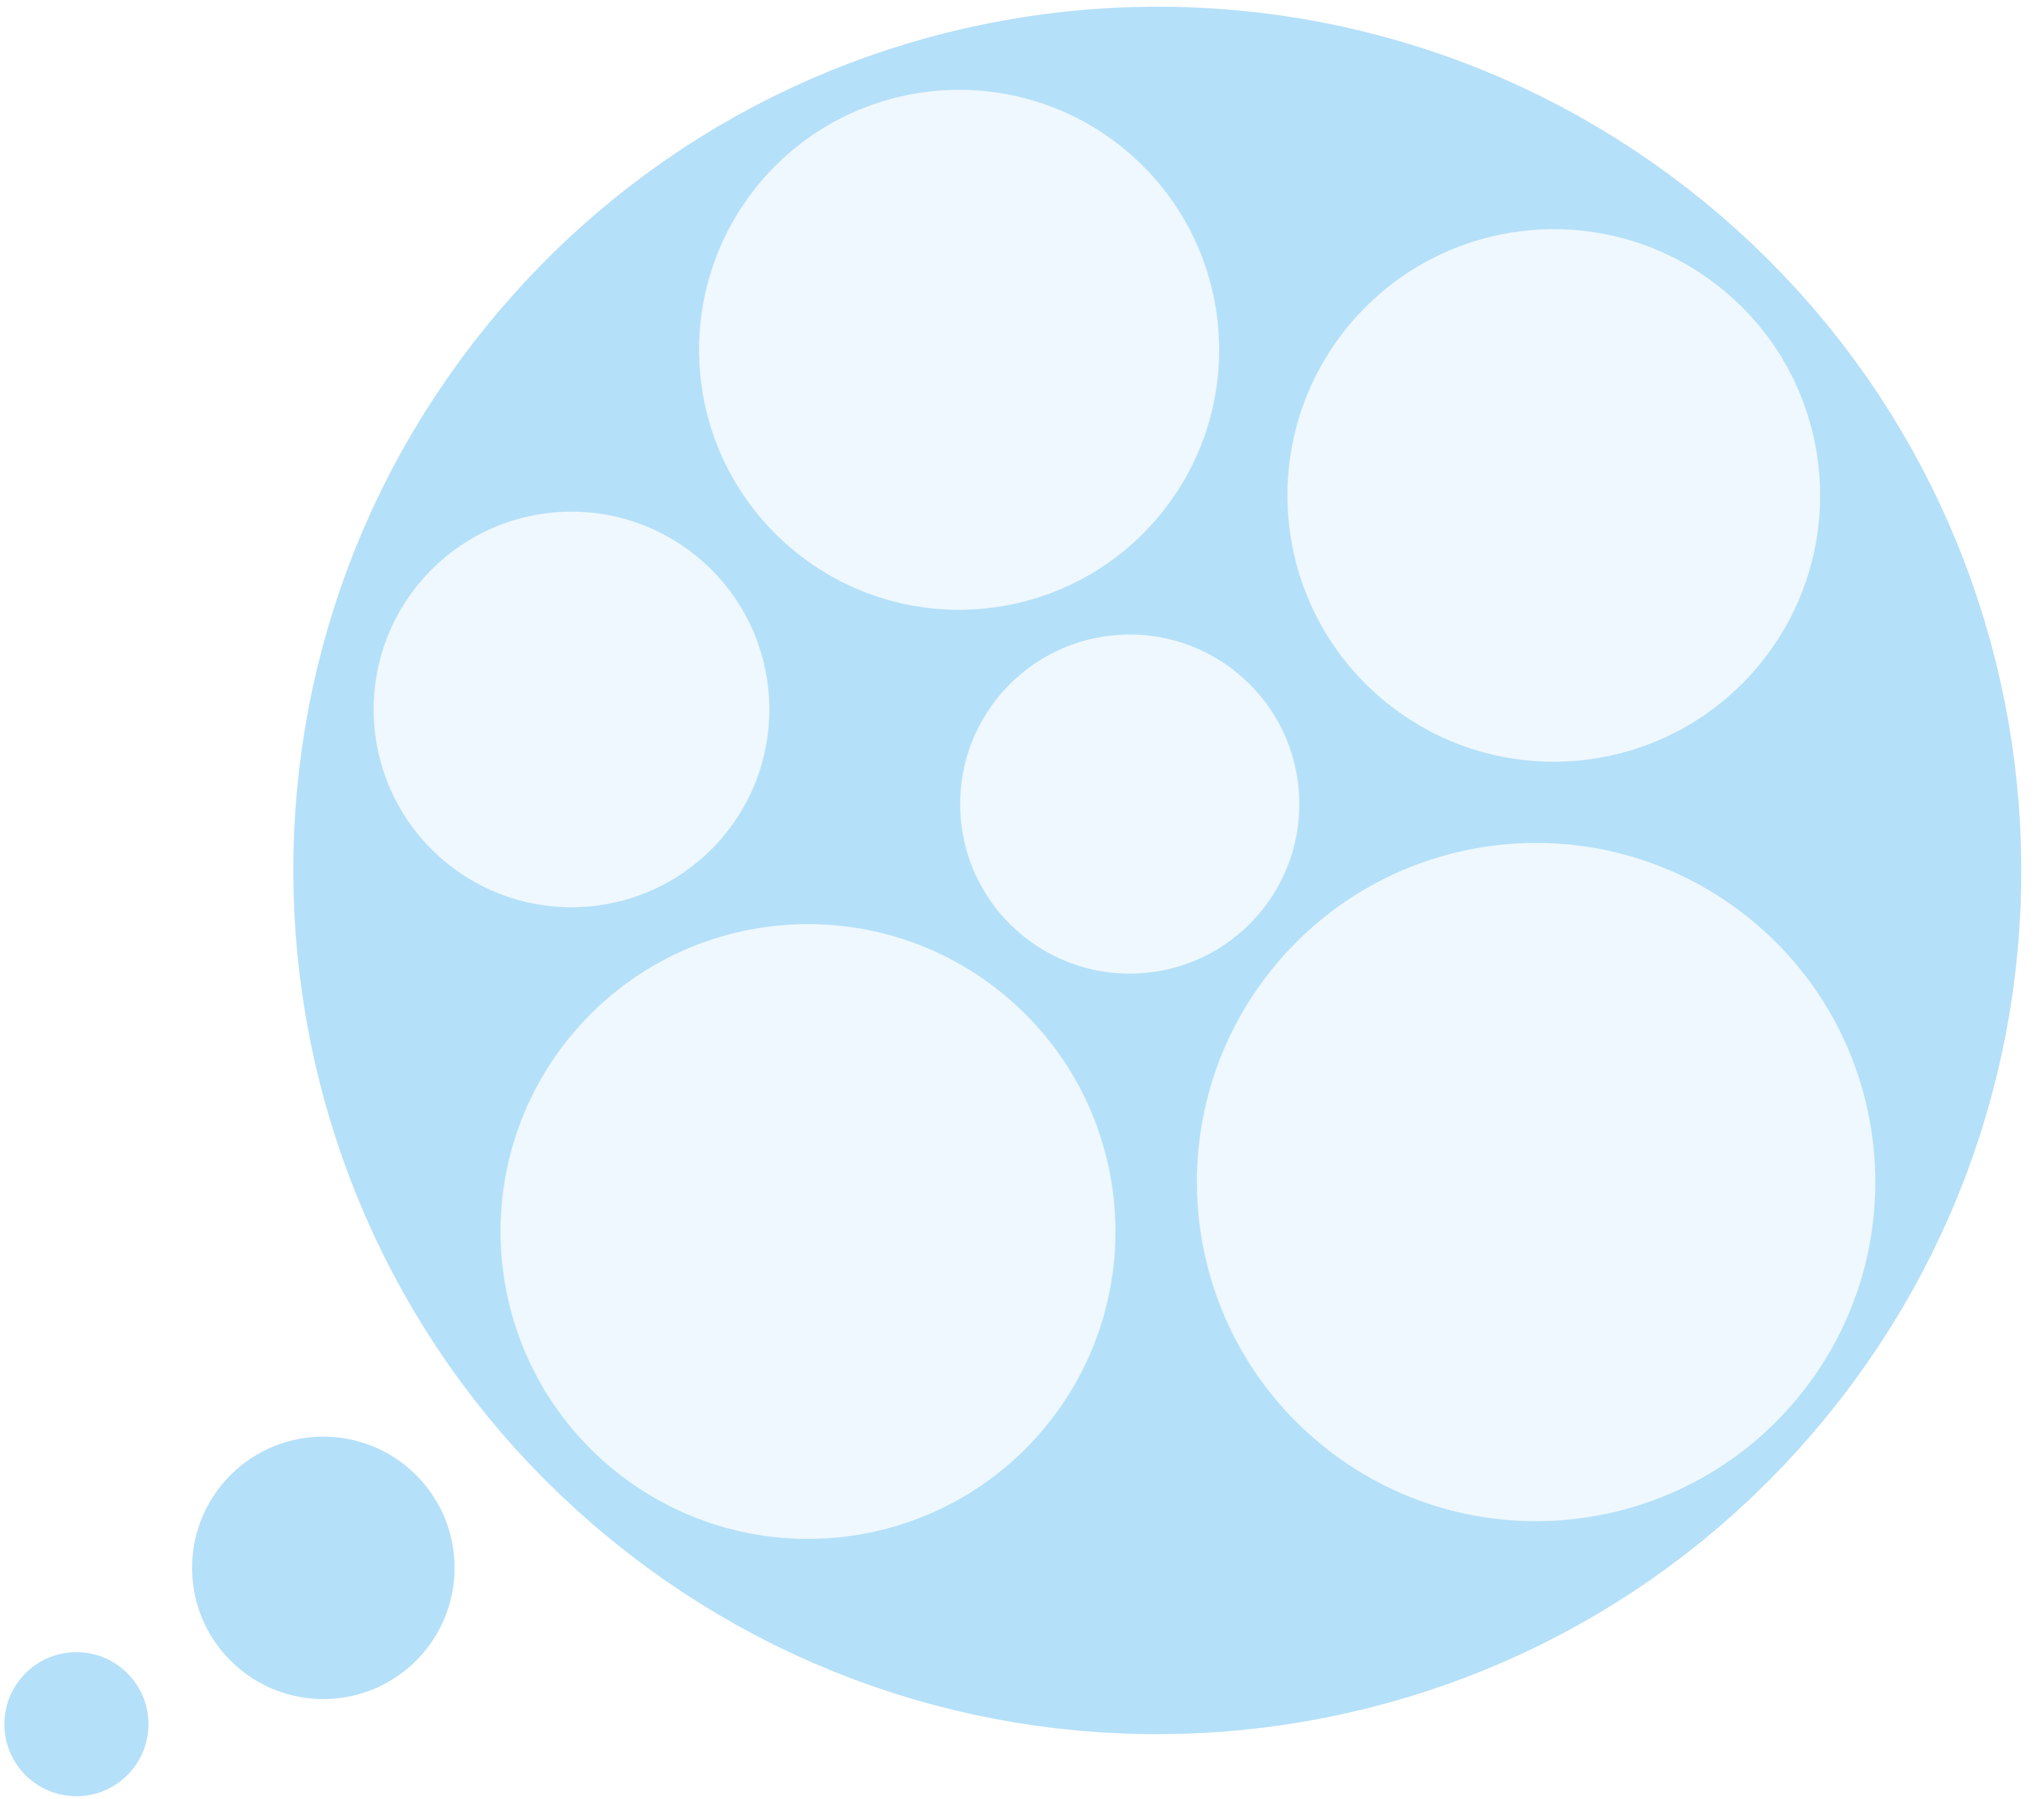

A large rounded rectangular box with a blue border, containing five horizontal dotted lines for writing.

# Design

## Stage 3

Brainstorm a range of practical solutions to the problem you want to solve.

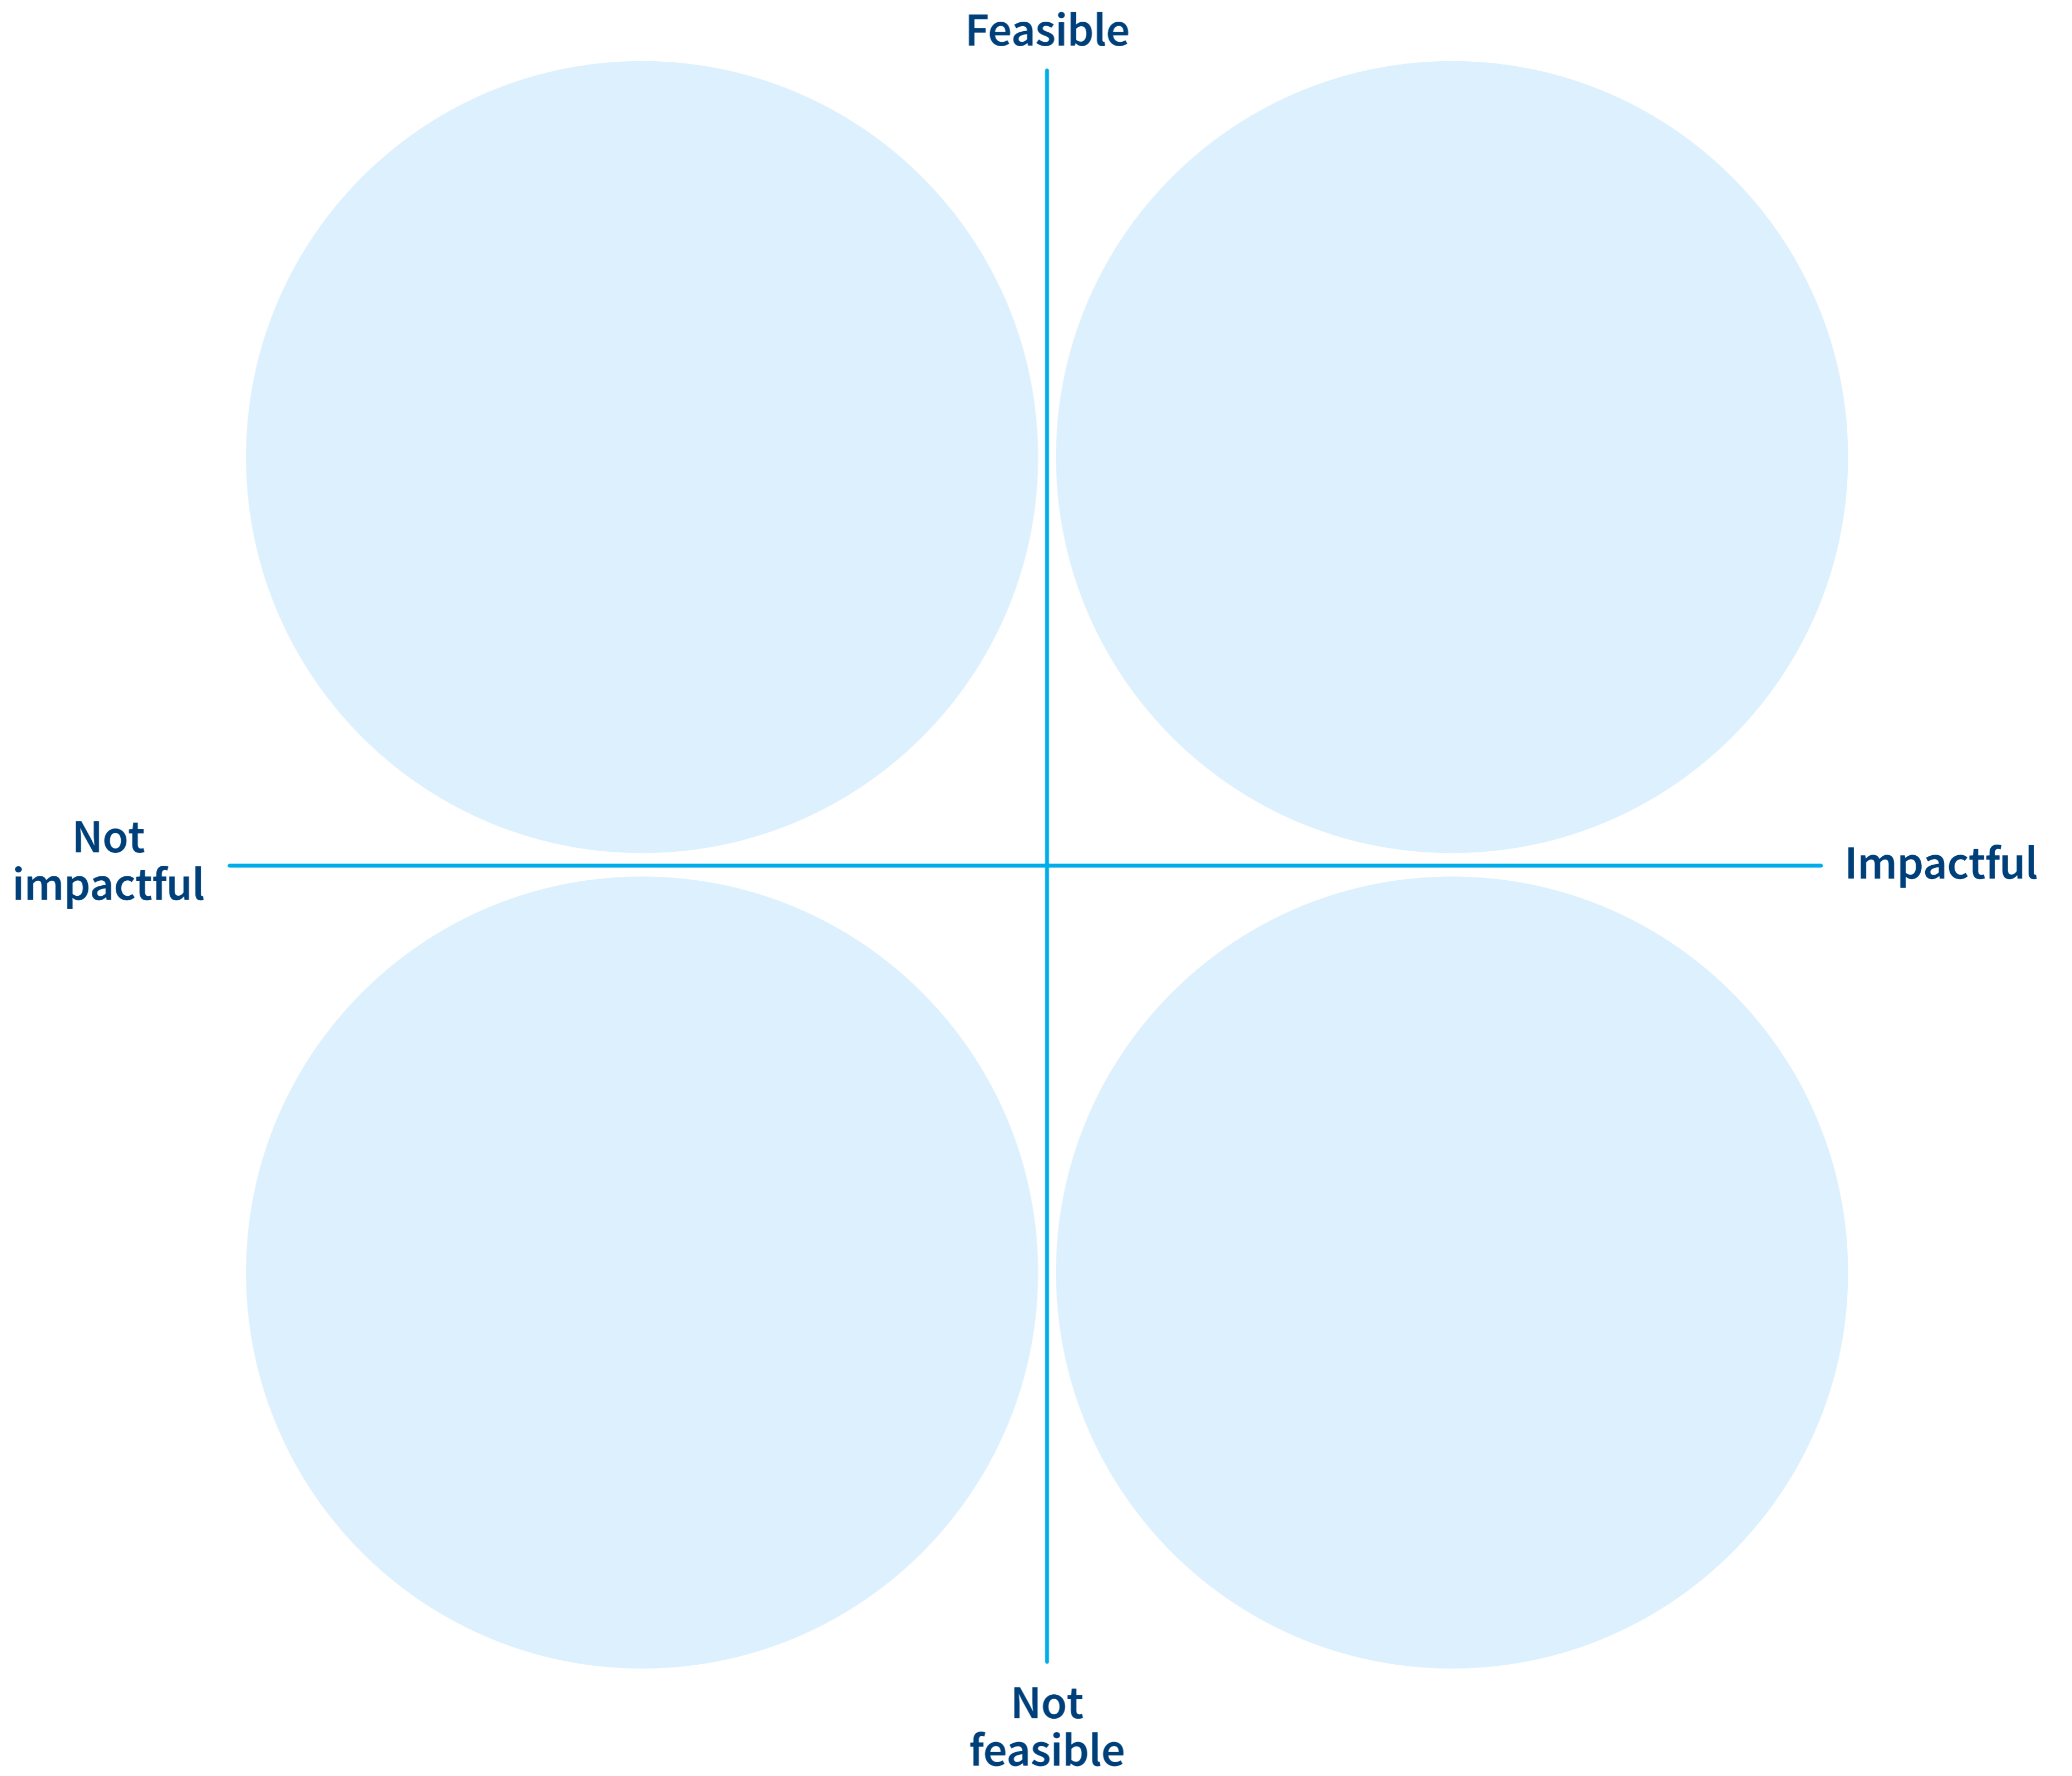

A large rounded rectangular box with a blue border, containing five horizontal dotted lines for writing.

# Develop

## Stage 4

Use the graph to help you review the impact and feasibility of the best solutions.

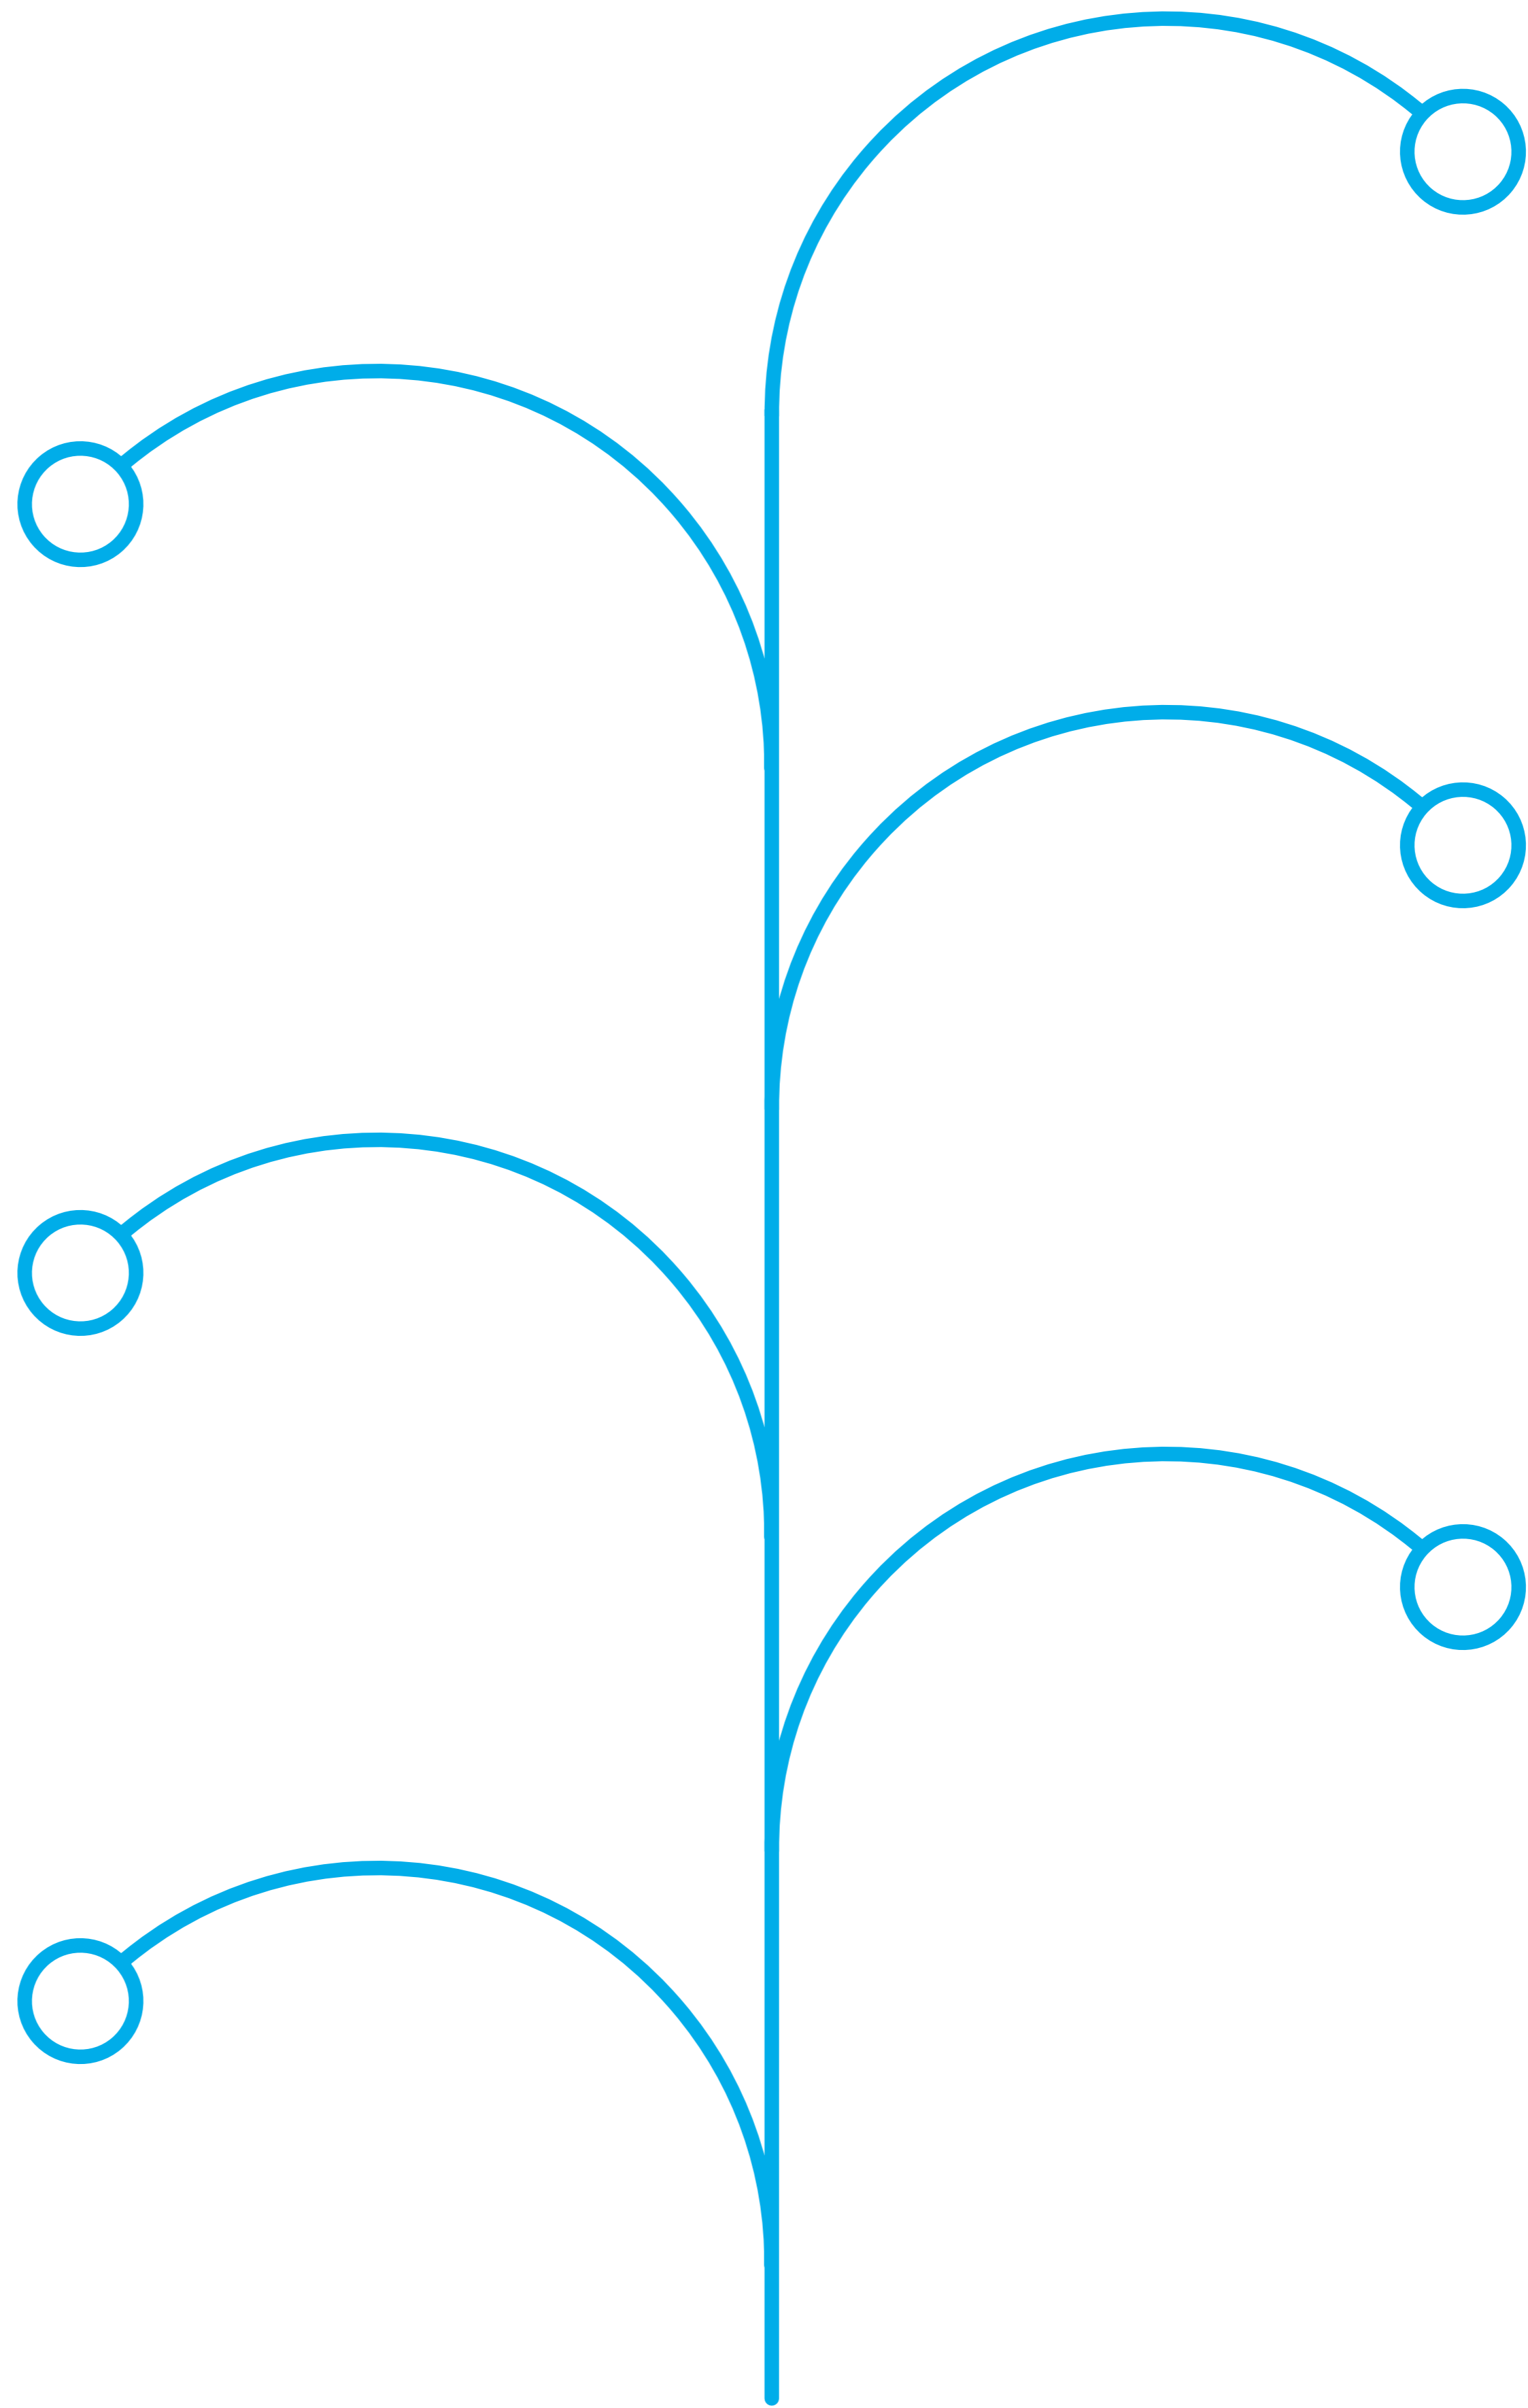

A large rounded rectangular box with a blue border and five horizontal dotted lines inside, intended for writing notes or observations.

# Deliver

## Stage 5

Use the set diagram to identify processes and methods to deliver the solution with the most potential.

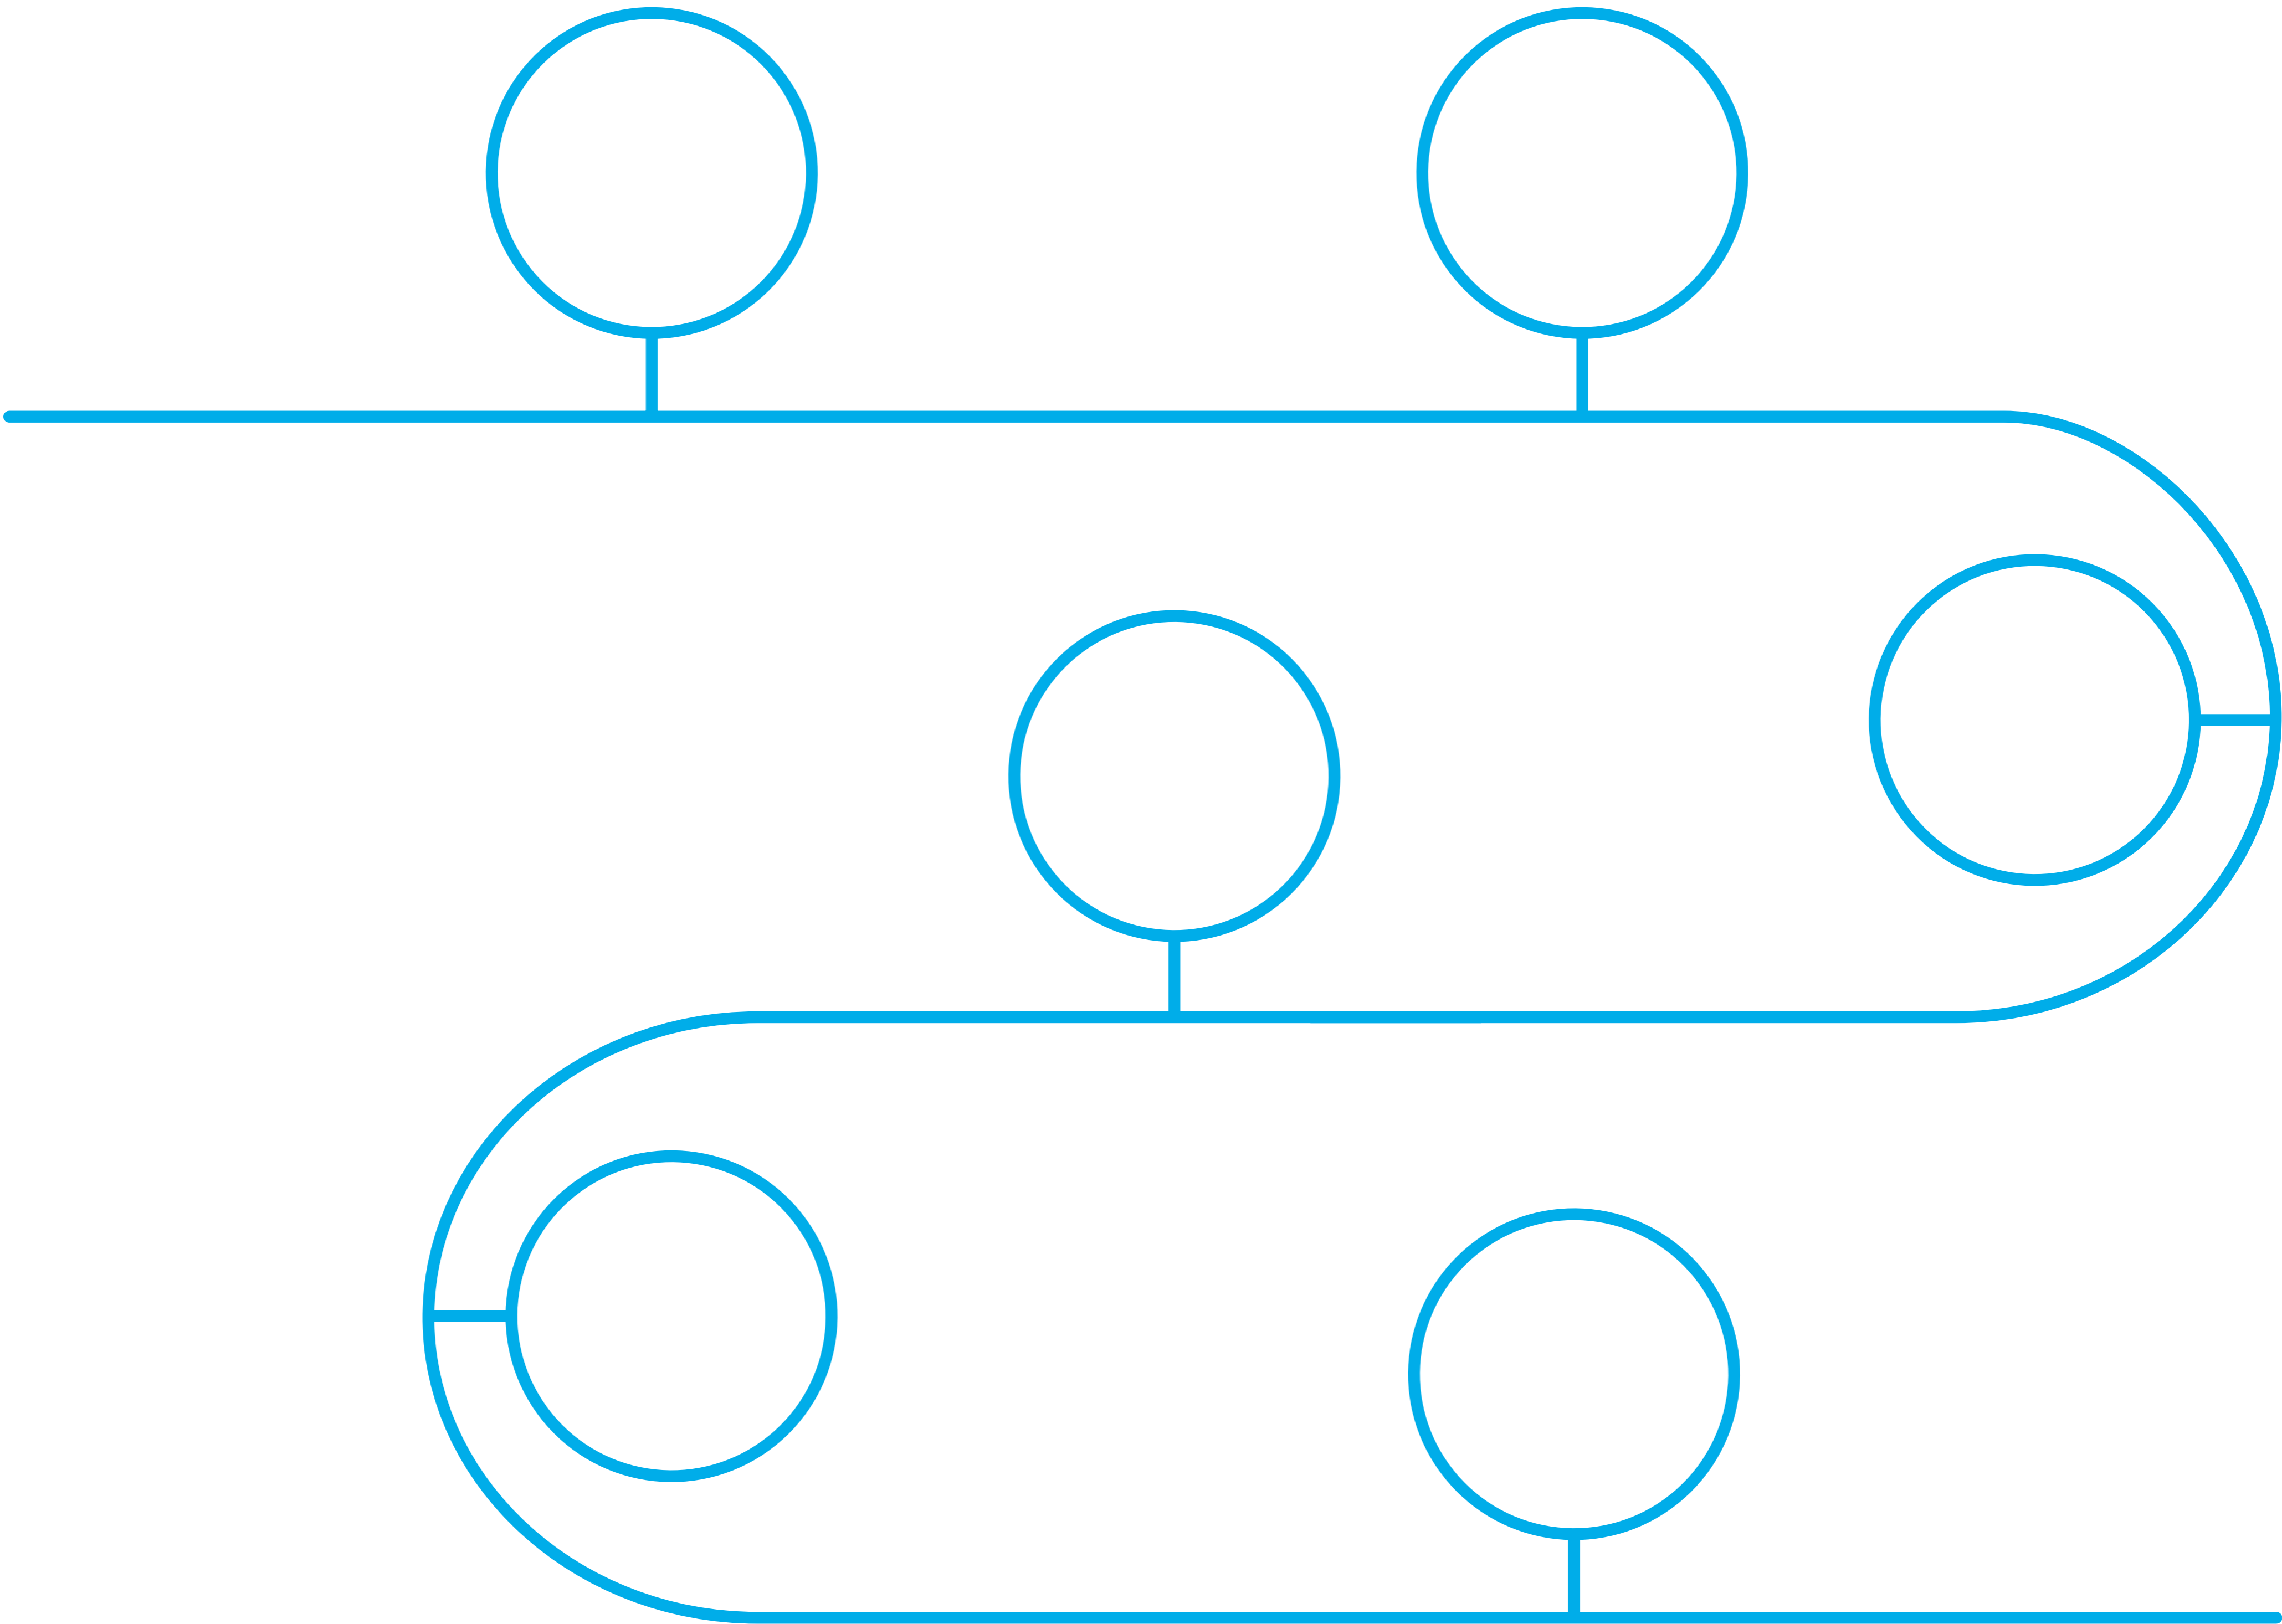

A large rounded rectangular box with a blue border, containing five horizontal dotted lines for writing notes.

# Distribute

## Stage 6

Map out a framework to distribute and scale your solution.

A large rounded rectangular box containing five horizontal dotted lines for writing notes.
