

WE ARE ALL ACTIVISTS

The [16 Days of Activism against Gender-Based Violence](#) is a worldwide annual campaign that starts on November 25th and runs until 10th December. It's a time for us to make noise and use our power to help prevent and eliminate violence against women and girls.

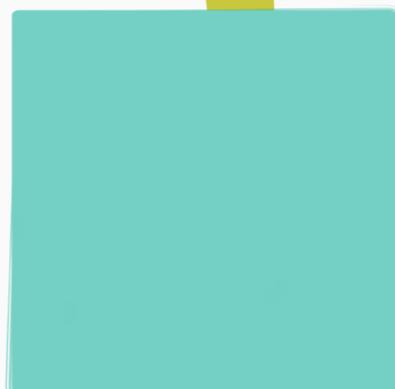

As a result of the COVID-19 pandemic violence against women and girls intensified. Cases of domestic violence surged by over 25%. This is unacceptable and we will not be part of a culture that allows sexual and gender-based violence to continue. We must take action.

At Women for Women International we believe that every action, no matter how small, can help end this global and pervasive issue. Ready to show the world the power of your actions?
