

SINAI and GDPR

Effective date: 26 August 2019

What is the GDPR?

The General Data Protection Regulation (“GDPR”) is a new comprehensive data protection law in the European Union (“EU”) that updates existing laws to strengthen the protection of personal data in light of rapid technological developments, increased globalization, and more complex international flows of personal data.

How does GDPR impact SINAI?

SINAI is committed to complying with GDPR and enabling our customers to comply with GDPR. We care deeply about the privacy of our users and keeping their data secure. Our Data Processing Agreement for EU based users are incorporated within our Terms of Use [<https://www.sinaitechnologies.com/legal>].

List of Subprocessors

SINAI engages some third-party service providers to assist SINAI in delivering its Services. These third-party service providers are sub-processors of SINAI. We carefully consider security and privacy concerns before engaging sub-processors and only do so when certain quality standards are met. Currently, we use the following subprocessors: Mailgun, Datadog, Mixpanel, and Amazon Web Services. We will periodically update this page to reflect additions and removals to our list of sub-processors.

For more information about SINAI's privacy policies please see our Privacy Policy and Terms of Use [<https://www.sinaitechnologies.com/legal>]. You can also contact us directly at privacy@sinaitechnologies.com
