It is with confidence I write this letter of recommendation for Ev.Cory Bourne.

In June 2018 Cory Bourne came to preach revival for us here in Hamilton, NZ. Cory did an outstanding job, and it was obvious that he moved in a flow of an 'Evangelist'. It is therefore, a blessing to see him move specifically into this realm.

The revival we had saw many visitors drawn out, many of whom were saved and continued to come throughout the revival and lock in.

Those touched by God during this time were;-

- People struggling with drug and sexual addictions who were delivered.
- A leading member of a national gang drawn by Cory's powerful testimony, got delivered of a spirit of murder.
- People of false religions answered the altar call and gave their lives to Christ.
- Many healed! – One miracle, an Indian lady with severe back pain for many years. Her son came simply because she could not manage to walk on her own and needed support to move. Cory Bourne prayed for her, the power of God was all over her and she was immediately healed. She was crying with relief.
- The Words he gave out were accurate helping many in the church.
- Cory Bourne's sensitivity to The Holy Spirit working during the altar-time was a blessing to the church as he showed God's love and care for God's people.

I do look forward to open borders so that Cory Bourne will not be confined to Australia and will be able to do all God has for Him.

Yours sincerely
