

# RADICAL DECLARATION OF INTERDEPENDENCE

*We believe humanity needs a radical transformation of how we view nature, ourselves and our purpose. We seek to move towards a paradigm where we unleash our desire to collaborate and make a collective impact.*

## Recognize Nature is Life

We recognize we are part of nature and are wholly interdependent with it. Our bodies, feelings and innate needs are our nature.

## Live My Radical Purpose

We are reconnecting with our innate needs to live life with Radical Purpose. Purpose is not a target outside us, but a path inside which we can learn to follow.

## Seek Freedom & Dignity

We are reclaiming our autonomy by breaking free of the boxes of our own making. We seek freedom from the force paradigm that limits us.

## Collaborate Through Needs

We leverage our collective intelligence to bring about new ways of being, working and collaborating by openly sharing and honoring needs.

## Make a Collective Impact

We recognize we are part of nature and are wholly interdependent with it. Our bodies, feelings and innate needs are our nature.
