

RADICAL DECLARATION OF INTERDEPENDENCE

We believe humanity needs a radical transformation of how we view nature, ourselves and our purpose. We seek to move towards a paradigm where we unleash our desire to collaborate and make a collective impact.

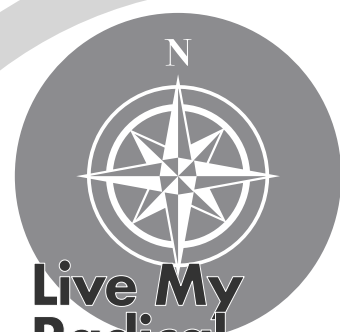

Recognize Nature is Life

We recognize we are part of nature and are wholly interdependent with it. Our bodies, feelings and innate needs are our nature.

Seek Freedom & Dignity

We are reclaiming our autonomy by breaking free of the boxes of our own making. We seek freedom from the force paradigm that limits us.

Live My Radical Purpose

We are reconnecting with our innate needs to live life with Radical Purpose. Purpose is not a target outside us, but a path inside which we can learn to follow.

Collaborate Through Needs

We leverage our collective intelligence to bring about new ways of being, working and collaborating by openly sharing and honoring needs.

Make a Collective Impact

We were born to come together and make a purposeful impact on the world. Collectively there is nothing we cannot change.
