

Workshops

Making Green Habits the Norm

GREENNUDGE

Why Workshops?

In 2020, Singapore disposed of nearly 2.8 million tonnes of non-recyclable waste*, which will be incinerated and sent to Semakau Island, the only landfill in our country. At the rate in which we are generating waste, Semakau Landfill will run out of space by 2035, and there is an urgent need to reduce and divert our waste.

In line with our goal to 'nudge' (and not to 'instruct'), we believe that providing meaningful engagements which enable individuals to reflect and learn about the problem is the way forward in changing the way we create and deal with waste. Many learn best by doing and hence our participants also partake in hands-on activities where our facilitators share simple tips and demonstrate how actions can make a difference to the environment.

We offer an array of workshops that tackle different waste streams in Singapore ranging from plastic, food and fabric waste. Through our workshops, participants gain a better understanding of the problem and an appreciation of current efforts and solutions.

*<https://www.nea.gov.sg/our-services/waste-management/waste-statistics-and-overall-recycling>

A group of people are sitting around a table in a workshop, engaged in a discussion. The background is a bright yellow and green abstract design. The text is centered over the image.

"We believe that meaningful engagements such as workshops which enable individuals to reflect and learn is the way forward in changing the way we create and deal with waste."

Ecobricks Workshop

Plastic Waste

Suitable for indoor sessions, Ecobricks is a starters workshop that deep dives into the situation of plastic waste in Singapore. Together with materials which can be contributed by participants, the workshop combines a hands-on session to transform used plastics into functional objects such as stools or tables for social use.

Participants learn to:

- Understand how ecobricks are made and used
- Explore solutions to tackle recyclable and non-recyclable materials in one's lifestyle
- Create a piece of furniture to be given for social cause

Duration:

2.5- 3 hours

newPlastics Workshop

Plastic Waste

The newPlastics workshop takes a closer look into the situation of single-use plastics and disposables in Singapore, and the challenges associated with recycling them. The workshop combines a hands-on session to transform used plastics into functional everyday objects such as carabiners or clothes pins.

Participants learn to:

- Understand the issue of dealing with disposables in Singapore
- Explore solutions to tackle recyclable and non-recyclable materials in one's lifestyle
- Create a usable object from recycled plastics

Duration:

1.5- 2 hours

Plastic Waste Combo Package

Can't choose between newPlastics or ecobricks? Why not learn about both to help your participants reduce their plastic waste? This package gives you a first hand experience of creating usable objects with used plastics – sign up for BOTH our workshops!

Duration:
3-4 hours

**Get the best
of both
worlds!**

Plastic Waste

Composting Workshop

Composting is the process of decomposing organic waste into organic material that are useful nutrients for gardens and farming. This workshop is packed with an exciting introduction to the world of composting, followed by a hands-on experience of transforming one's organic waste into useful fertilisers for plants.

Participants learn to:

- Understand why composting is important to deal with and reduce organic waste going to our landfill
- Appreciate the reasons behind using organic materials to create natural nutrients for growing healthy plants
- Create one's own compost with hands-on demonstration

Duration:

1 - 1.5 hours

Food Waste

Eco-enzyme Workshop

Food Waste

Eco-enzyme is an all natural cleaning product produced from the fermentation of fresh kitchen waste such as orange peels. This indoor workshop will be short and sweet. There will be an introduction to fermentation and eco-enzyme coupled with a fun and practical session of making eco-enzymes with materials prepared by participants!

Participants learn to:

- Understand the food waste problem in Singapore
- Appreciate the reasons behind using organic materials to create natural cleaning products
- Create one's own eco-enzymes with hands-on demonstration

Duration:

1 - 1.5 hours

Coffee Scrubs Workshop

Food Waste

This will be the most delicious smelling workshop that you will attend! In this indoor workshop, you will be introduced to the history of coffee, the coffee culture in Singapore and the sustainability of coffee production. You will also learn about the waste footprint of coffee and ways to deal with it!

Participants learn to:

- Appreciate the history and culture of coffee, and the sustainability of coffee production and consumption in Singapore
- Understand the waste footprint associated with coffee
- Create one's own coffee scrubs with hands-on demonstration

Duration:

1 - 1.5 hours

Food Waste Combo Package

Food waste is a growing concern in Singapore, one that is complex and constantly evolving. Our food waste workshops are carefully curated to navigate these complexities and to find simple solutions to reduce waste.

To get a good 'flavour' of the issue, we recommend that you choose two out of our three workshops as a combo package. Say yes to less waste and make green habits the norm!

Duration:
3 hours

**Choose two
out of three!**

Food Waste

Fabric Tote Bag Workshop

Available for both physical and online sessions, this workshop invites participants to upcycle an old t-shirt from being thrown away by turning it into a simple tote bag. Participants will also be invited to unpack the topic of fashion waste in their lifestyle and in Singapore.

Participants learn to:

- Understand about fast fashion and the impact of fabric waste
- Differentiate between recycling, reusing and upcycling
- Develop a new skill using a simple weaving method to create one's own tote bag using an old t-shirt

Duration:

1 - 1.5 hours

Fabric Waste

Workshop Layout

Duration:

1 – 3 hours (depending on workshop choice)

Location:

Virtual or physical location at offices or community spaces

Typical timeline for workshops

(subject to change according to workshop choices):

Duration	Activity
20 mins	Sharing of selected environmental issues in Singapore, solutions and hands-on activity
5 mins	Briefing for the hands-on material
15 mins	Demonstration
60 mins	Hands-on!
15 mins	Q&A, Wrap up!

Online Sharing Now Available!

Fancy a larger group engagement but troubled by the lack of venue to host the session? Some of our engagements can be tweaked to host virtual engagements so that participants may learn from the comfort of their own homes

We have conducted talks, workshops as well as dialogues via digital platforms such as Zoom, Microsoft Teams, and Google Meet.

If you are a first-time organiser of online talks for your company or community, we will guide you along the way to ensure that you carry out the outreach in a meaningful and impactful manner.

Interested in Working With Us?

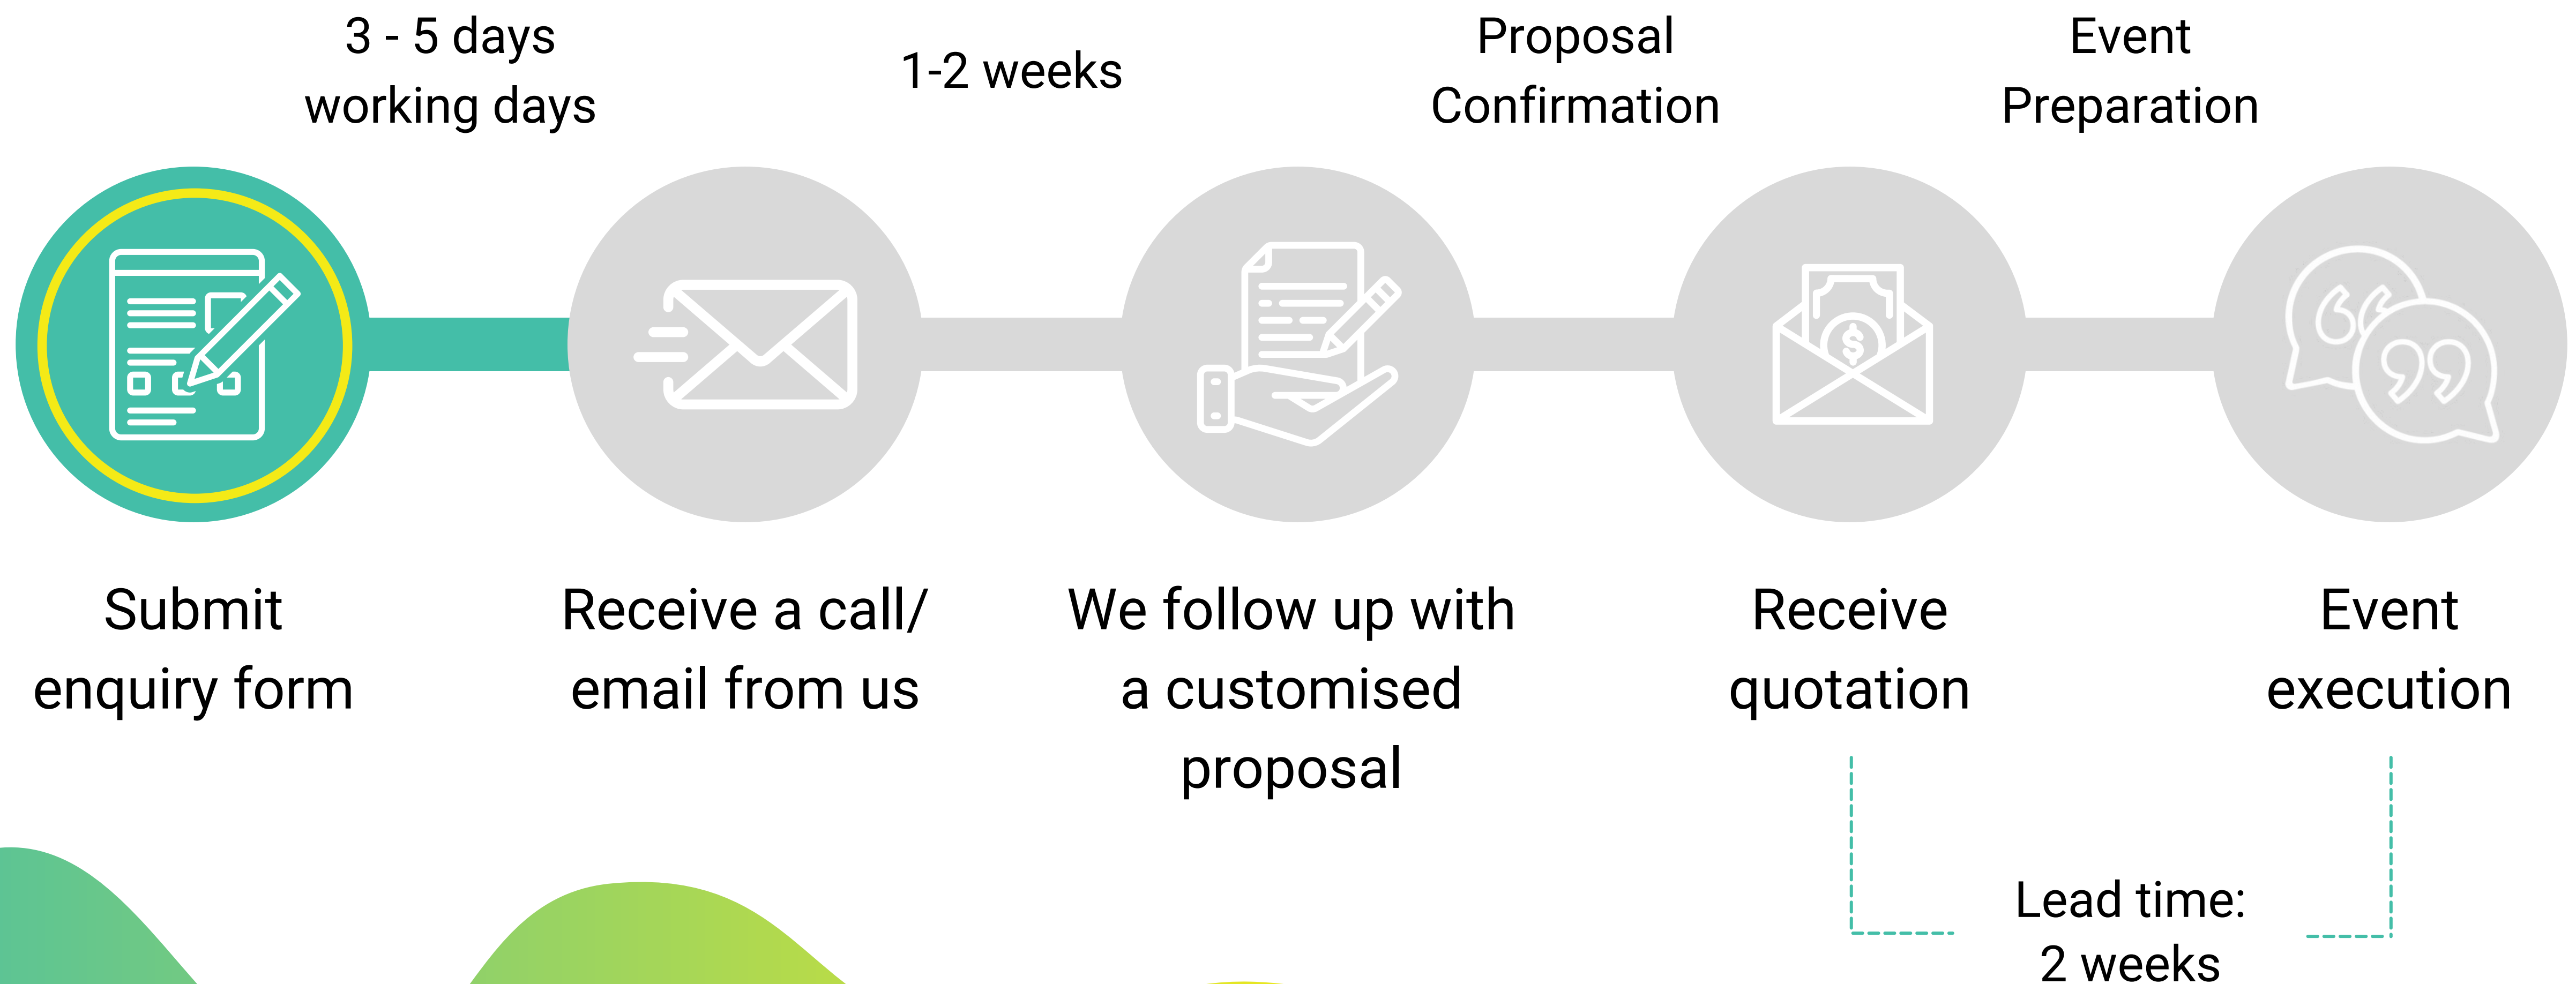

Drop us an enquiry by filling up our form [here](#).

We will drop you an email or call within **3 - 5 working days** to share more about our work before following up with a customized proposal for your review!

What to expect after you submit a request:

Our Public Sector and Community Clients

As a GeBiz registered business, we have worked with several public agencies and ministries.

Here are some of the partners whom we have worked with:

Our Corporate Clients

As a GeBiz registered business, we have also worked with corporate clients.

FAQs

Where do you hold such workshops? What if I do not have any rooms available?

We usually carry out workshops in your organisation's space. If meeting rooms are required, we can assist to look for rooms at external venues (which may incur additional cost). Otherwise, we can also hold virtual sharing of workshops.

What is the lead time between the enquiry process to event execution?

The team will need at least 2 weeks of lead time prior to the actual workshop. This includes providing a confirmed number of attendees as well as confirmed quotation.

Why do you charge for your services?

As a social enterprise and a registered business, we believe that the best way for us to maximise impact is to ensure the financial viability of the work. Thus we charge reasonable fees to cover our costs and ensure the long-term sustainability of our enterprise.
