WORK EXPERIENCE

Comcast — User Experience Designer

Philadelphia, PA | Apr 2020 – Sept 2020

Due to COVID-19, the internship was cancelled, however, I still participated in Comcast NBCUniversal Virtual Development Experience.

DVNC — User Experience Designer

Philadelphia, PA | Sept 2019 – Jan 2020

Spearheaded design for the main website for the interactive game development start-up. Crafted responsive user experiences while iteratively enhanced the current designs and assets based on new user research and stakeholder feedback to increase user adoption in game and art communities.

Clarivate Analytics — User Experience Designer

Philadelphia, PA | Apr 2019 – Sept 2019

Directly collaborated with designers and developers while managed projects involving UI design, wireframes, and user flows to improve daily workflows for academia researchers. Defined product and design strategy through user research interviews, usability testings, heuristic evaluations, and competitor analysis to establish intuitive design solutions.

Modernizing Medicine — Corporate Operations Intern

Boca Raton, FL | May 2018 – Aug 2018

Incorporated customer relationship management (CRM) through Salesforce. Acquired skillsets in customizations and system configurations to improve internal operation workflows to serve business applications and performance design in Salesforce.
