AD*Star Features

Tear-Proof

AD*Star sack is resistant to dropping, bending and squeezing due to its powerful characteristics from the polypropylene woven fabric which is made of.

Water-Proof

AD*Star sack provides a water resistant barrier for its content against water and high humidity weather condition thanks to its laminated coating.

High-speed filling

When using AD*Star sack on existing filling lines, no adjustments are needed for manual filling stations and only minor adjustments are required for automatic ones.

Attractive appearance

AD*Star sack provides an attractive appearance whether printed or having a laminated high quality BOPP film to the fabric.

Brick shape

AD*Star sack with its brick shape can be easily stacked up automatically or manually and therefore save valuable storage area.

Felxible

Due to its high flexibility and strength, AD*Star bags surpass normal multi-layer paper bags in a drop test.
