As a self-taught 3D artist I take a great deal of pride in my eagerness and enthusiasm to leverage research-based methodologies and creative problem solving towards finding solutions to design challenges, big or small.

Experience

COLLINS (New York, NY)

3D Artist: November 2020 - December 2020

Contracted by COLLINS to create 3D visualizations and animations for several case studies.

Clients these projects pertained to:

- San Francisco Symphony
- Mattel
- Cora
- Happy Valley

Fulton (New York, NY - Remote)

3D Artist: November 2020 - Present

Created 3D models and renderings of Fulton's insole to spec. Effectively demonstrated the cost-reduction benefits of utilizing a 3D artist for product visualization over that of product photography.

Realm (New York, NY - Remote)

3D Artist: October 2020 - December 2021

Created 3D models and renderings of various abstracted architectural assets to highlight useful additions homeowners could add to their existing property. All renders utilized Octane's Shadow Pass so that the resulting images would sit nicely on top of Realm's brand colors.

Proper (New York, NY - Remote)

3D Artist: June 2020 - January 2021

Created 3D models and renderings of Proper's product line to spec. Effectively demonstrated the cost-reduction benefits of utilizing a 3D artist for product visualization over that of product photography.

The Future Forward (Brooklyn, NY - Remote)

3D Artist: June 2020 - January 2021

Created a range of 3D models, simulations, and animations for a case study of a branding identity The Future Forward produced for their client, Company 3.

COLLINS (New York, NY)

3D Artist: October 2019 - December 2019

Contracted by COLLINS to create 3D visualizations and animations for a number of active projects and case studies. Clients these projects pertained to:

- Allen Edmonds
- FANZA
- Girl Scouts of America
- Coinbase
- Edge Shave Gel
