

Seed + Slug Pellet Broadcasting

Logic's **EBC range of electro broadcasters** have been developed to operate via the carrying vehicle's 12v electrical system, which provide great versatility and accuracy especially when applying low volume rate. There are several options to choose from including manual, powered to powered synchro control with variable disc speed and either 85 or 130 litre capacity.

Powered Synchro Control Box – all powered synchro models are supplied with a control box which has the additional feature of a variable disc speed control dial allowing the operator to alter the spread width, particularly useful when working with drills/harrows, etc. where reducing the spread width to match that of the implement is important. This control box also incorporates a 'turbo drive' switch which provides maximum power to the disc ensuring 'slug pellets' reach 24.0 metre tramline widths and beyond.

Powered Control Box – all powered models are supplied with a control box which comes with a ‘disc control’ ON/OFF and a ‘flow control’ OPEN/ Disc Control CLOSED switch. Both powered control box units are supplied with plenty of cable to allow ‘in cab’ positioning of the control box, close to the operator.

Model	Capacity	Control system	Spread width		Suitable vehicle
			Slug Pellets*	Grass seed	
EBC-TFS80	85 litres	Manual	12.0 – 24.0 metres	Up to 6.0 metres	ATV only
EBC-TFS80P	85 litres	Powered	12.0 – 24.0 metres	Up to 6.0 metres	ATV, UTV, 4x4, tractor, self-propelled sprayer
EBC-TFS80PS	85 litres	Synchro – variable speed	Variable up to 24.0 metres	Variable up to 6.0 metres	ATV, UTV, 4x4, tractor, self-propelled sprayer
EBC-TFS120P	85 litres	Powered	24.0 – 30.0 metres	Up to 6.0 metres	UTV, 4x4, tractor, self-propelled sprayer
EBC-TFS120PL	130 litres	Powered	24.0 – 30.0 metres	Up to 6.0 metres	UTV, 4x4, tractor, self-propelled sprayer
EBC-TFS120PS	85 litres	Synchro – variable speed	Variable up to 30.0 metres	Variable up to 6.0 metres	UTV, 4x4, tractor, self-propelled sprayer
EBC-TFS120PSL	130 litres	Synchro – variable speed	Variable up to 30.0 metres	Variable up to 6.0 metres	UTV, 4x4, tractor, self-propelled sprayer

Note: * Maximum slug pellet spread widths are achievable subject to the following: Good quality slug pellets (wet extruded 2.7mm min), suitable voltage output from vehicle, minimum disc height of 1.8m, maximum forward speed of 16kph (10mph) and suitable weather conditions.
