Personal Profile

A second-year IxD student at Ulster University, Belfast, Northern Ireland currently looking for a placement role in UI/UX design. From foundation year to now, I have interests in designing content that creates a personal story, allowing myself to indulge in producing successful outcomes originating from sketching to finished prototypes. Enjoys working in a team that commits and contributes to resolving problems and supporting each other. I see UI/UX design as a forever learning journey, determined to set foot in this fast-paced industry, a placement role in UI/UX Design motivates me to be ambitious on expanding my skillset and establishing my career in a striving manner.

Work Experience

Good Fortune Restaurant

Waitress

2018 - Current

Working in a hospitality environment, my work includes contributing to a better workforce. One essential skill is customer service; engaging and advising a customer with specific preferences, ensuring their choices are respected and feel welcomed. This skill has enabled me to be attentive and prompt, which also showcases my communicative skills.

Silver Boat Takeaway

Graphic Design – Menu Poster Design

As a designer, ensuring client satisfaction was well received, I presented their requirements through responsive queries, ensuring each request is consistent and followed. This showcased my listening abilities; to establish and impose an effective understanding of their values.

Katie By Katie Chan Project

Social Media Content

Supervising Art Director

2018-2019

Roleplaying as a supervisor for a social media market project, I contributed to advising the direction the project was following. Using my teamwork and communicative skills, I guided approaches and suggested any implementations. Overall, it made the team and I more committed and flexible through informative feedback.

Work Experience

- Continued

Och Design – Graphic Design Studio

Graphic Designer
(School Work Experience) 2015

Considering my first work experience was at Och Design, I spent time discovering the fundamentals of design. In routing myself to be more confident and start to invent who I am as a designer.

Skills

Problem Solving Skills

- Having the ability to discuss matters and understand personal preferences with team members to help proceed to the next stage. For example; reducing conflict with the structure of a presentation during a meeting with team members.

Attention to Detail

- A quality like this enables me to surface the minor details, ensuring each outcome is created in its best potential. For example; when I'm creating digital illustrations; each design element should be precise, as 'quality' is a priority to enhance visual satisfaction.

Communication and Language Skills

- Bilingual (English and Chinese)
- As a waitress, communication skills are vital to create a relationship with customers to recognise specific needs. For example; being open-minded and reflective when I'm conversing, so a friendly environment has been set.

Teamwork Skills

- Contribute to building relationships with team members and be open-minded. For example; being vocal about the content showcases my ability to discuss opinions to improve the overall outcome.

Organisational and Multitasking Skills

- Able to work in a fast-paced environment. For example; working under pressure allows me to figure out my top priorities, for instance, determined to complete clients before personal tasks.
